PORTFOLIO

Burak OGLAKCI

Hello! My name is Burak Oğlakçı.

As a designer I have a perfectionist profile which helps me to work with details and create consistent design systems and rules.

And I believe improvement is an endless path which always makes me ask the question “How could it be better?” everytime I design.

That’s why I think design is a limitless journey of learning, experimenting and improving.

route it

outdoor exploration companion for tracking, analyzing and sharing...

description

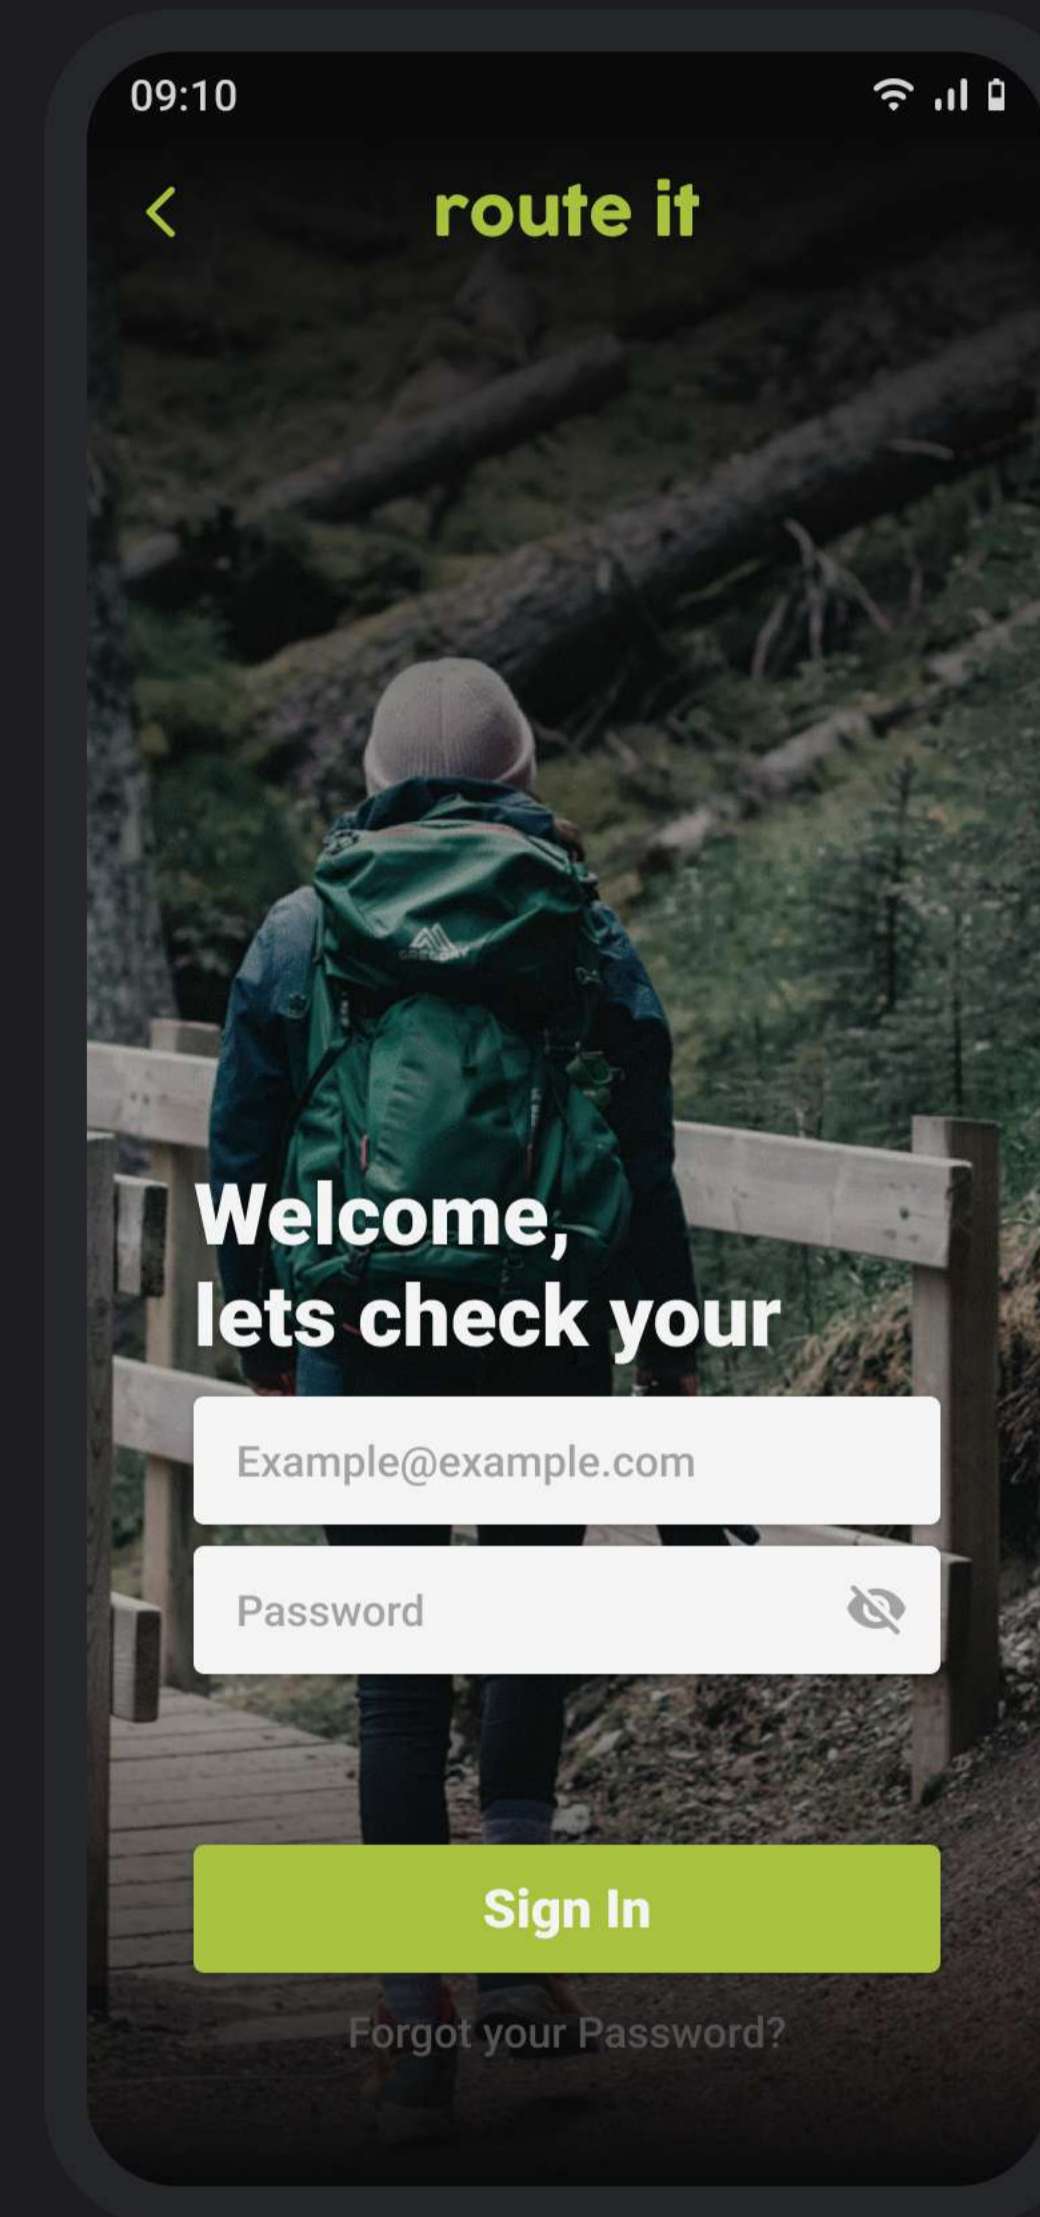

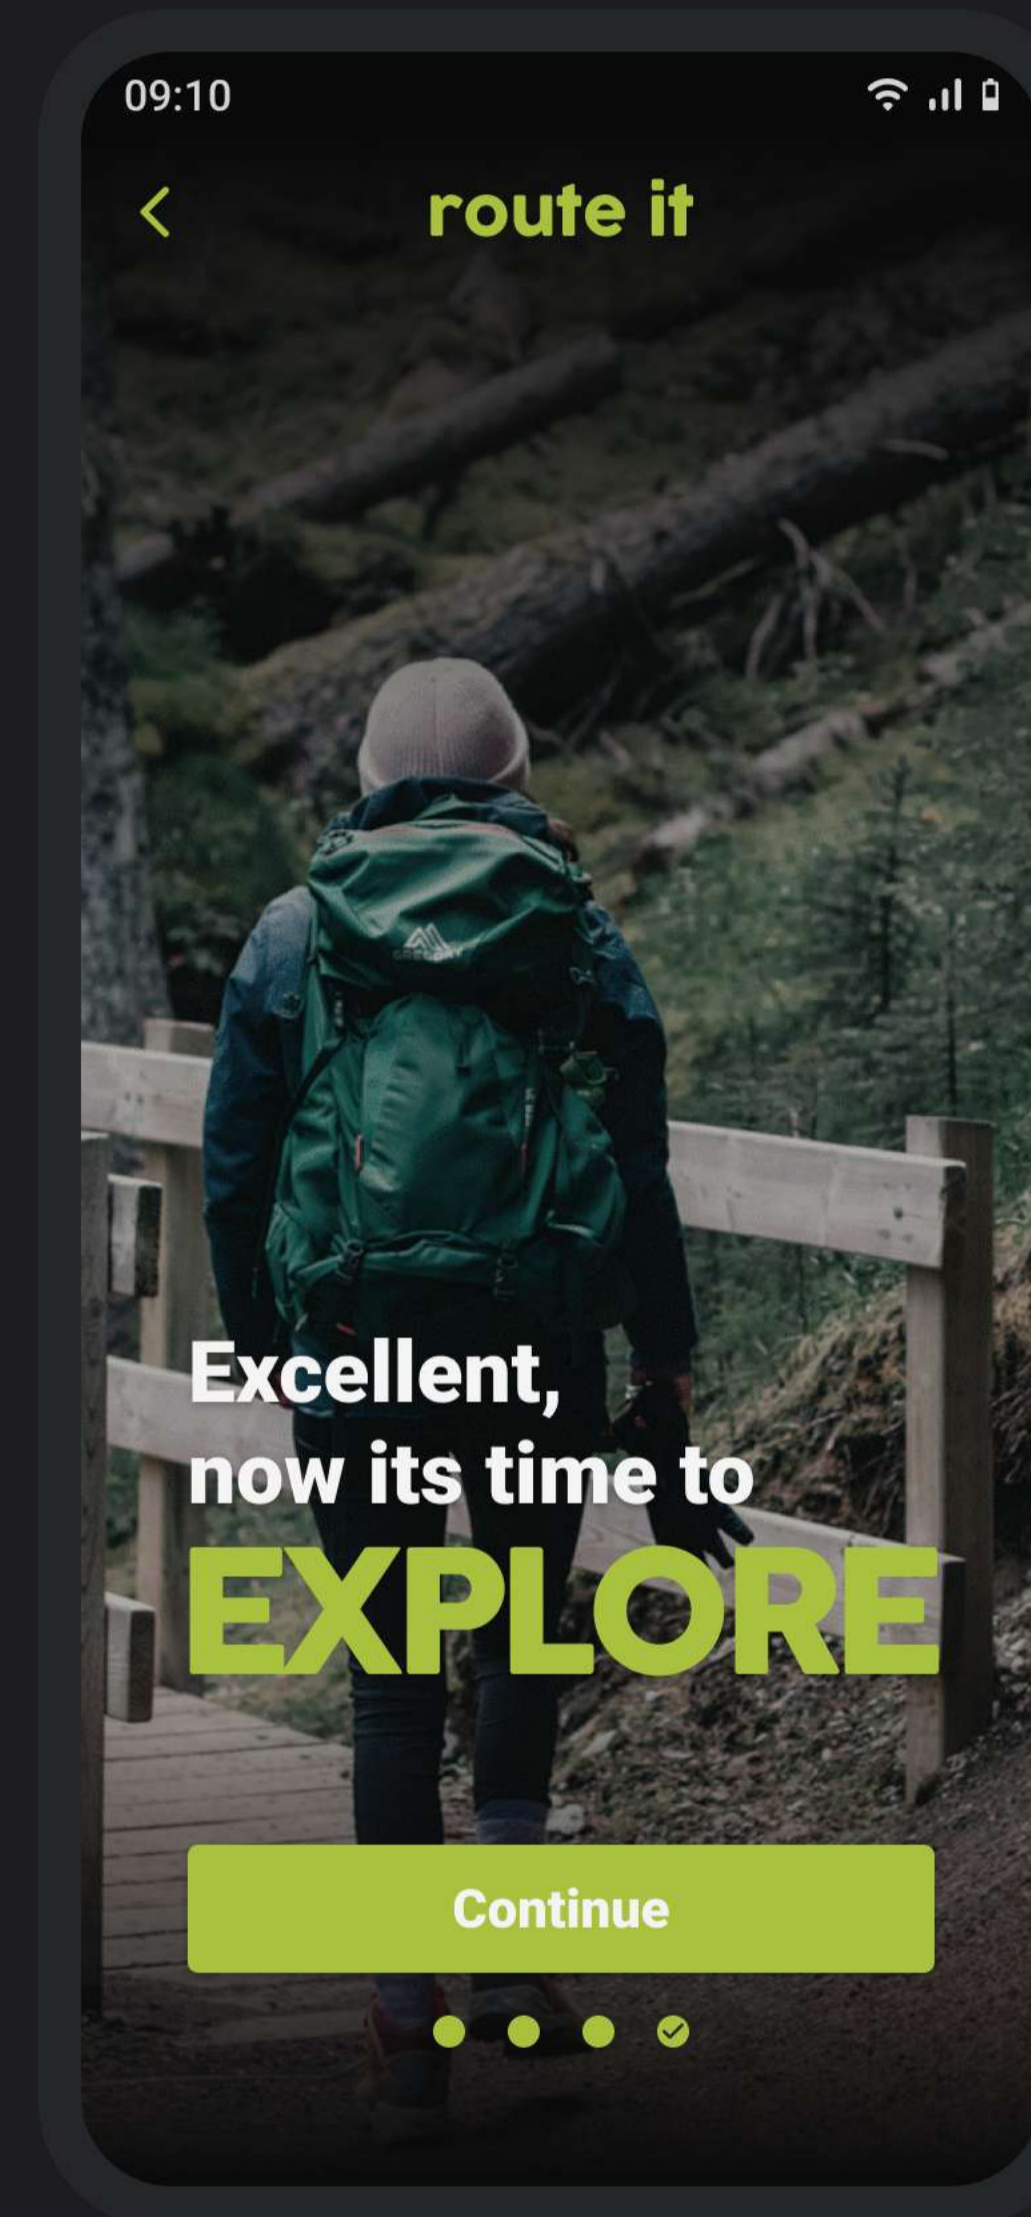

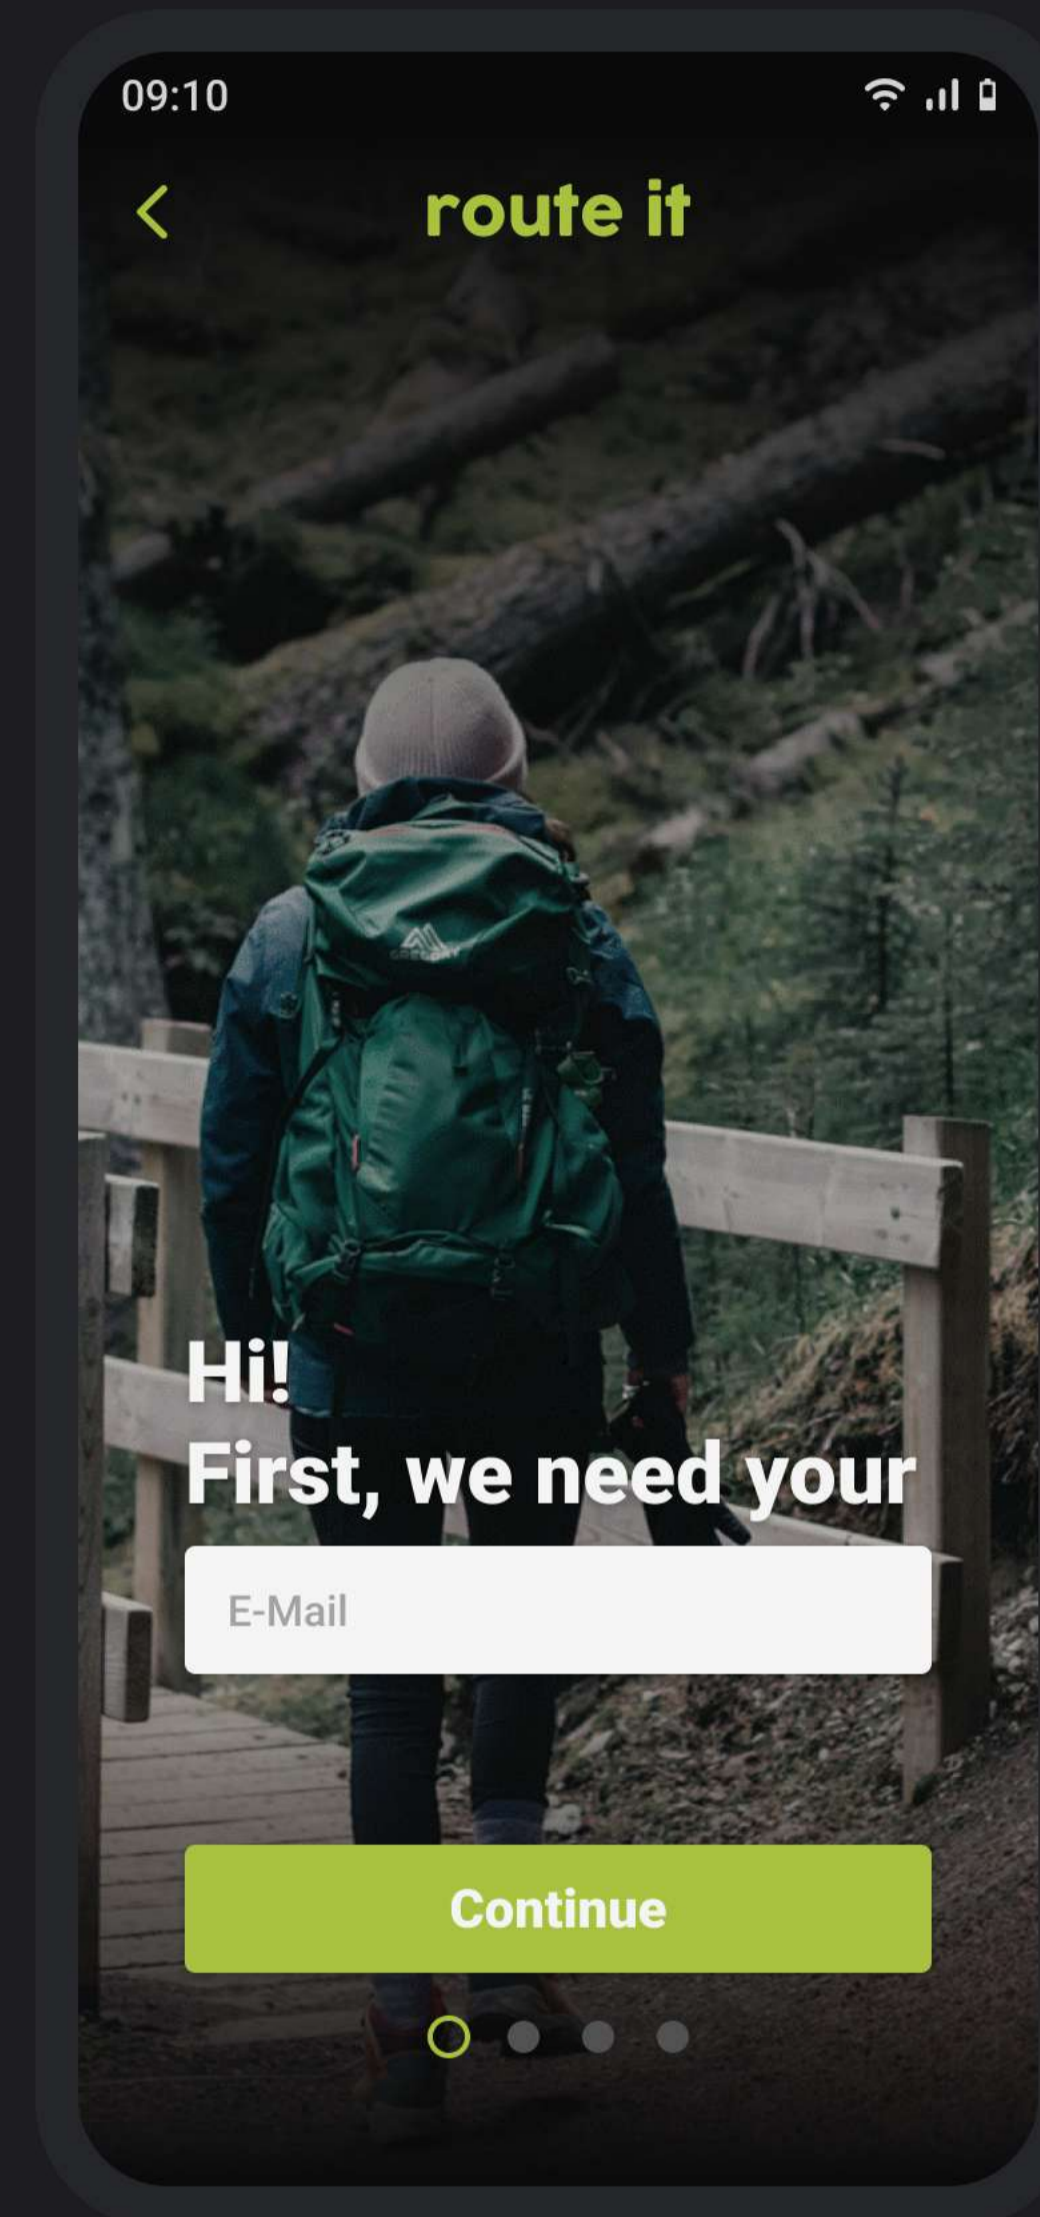

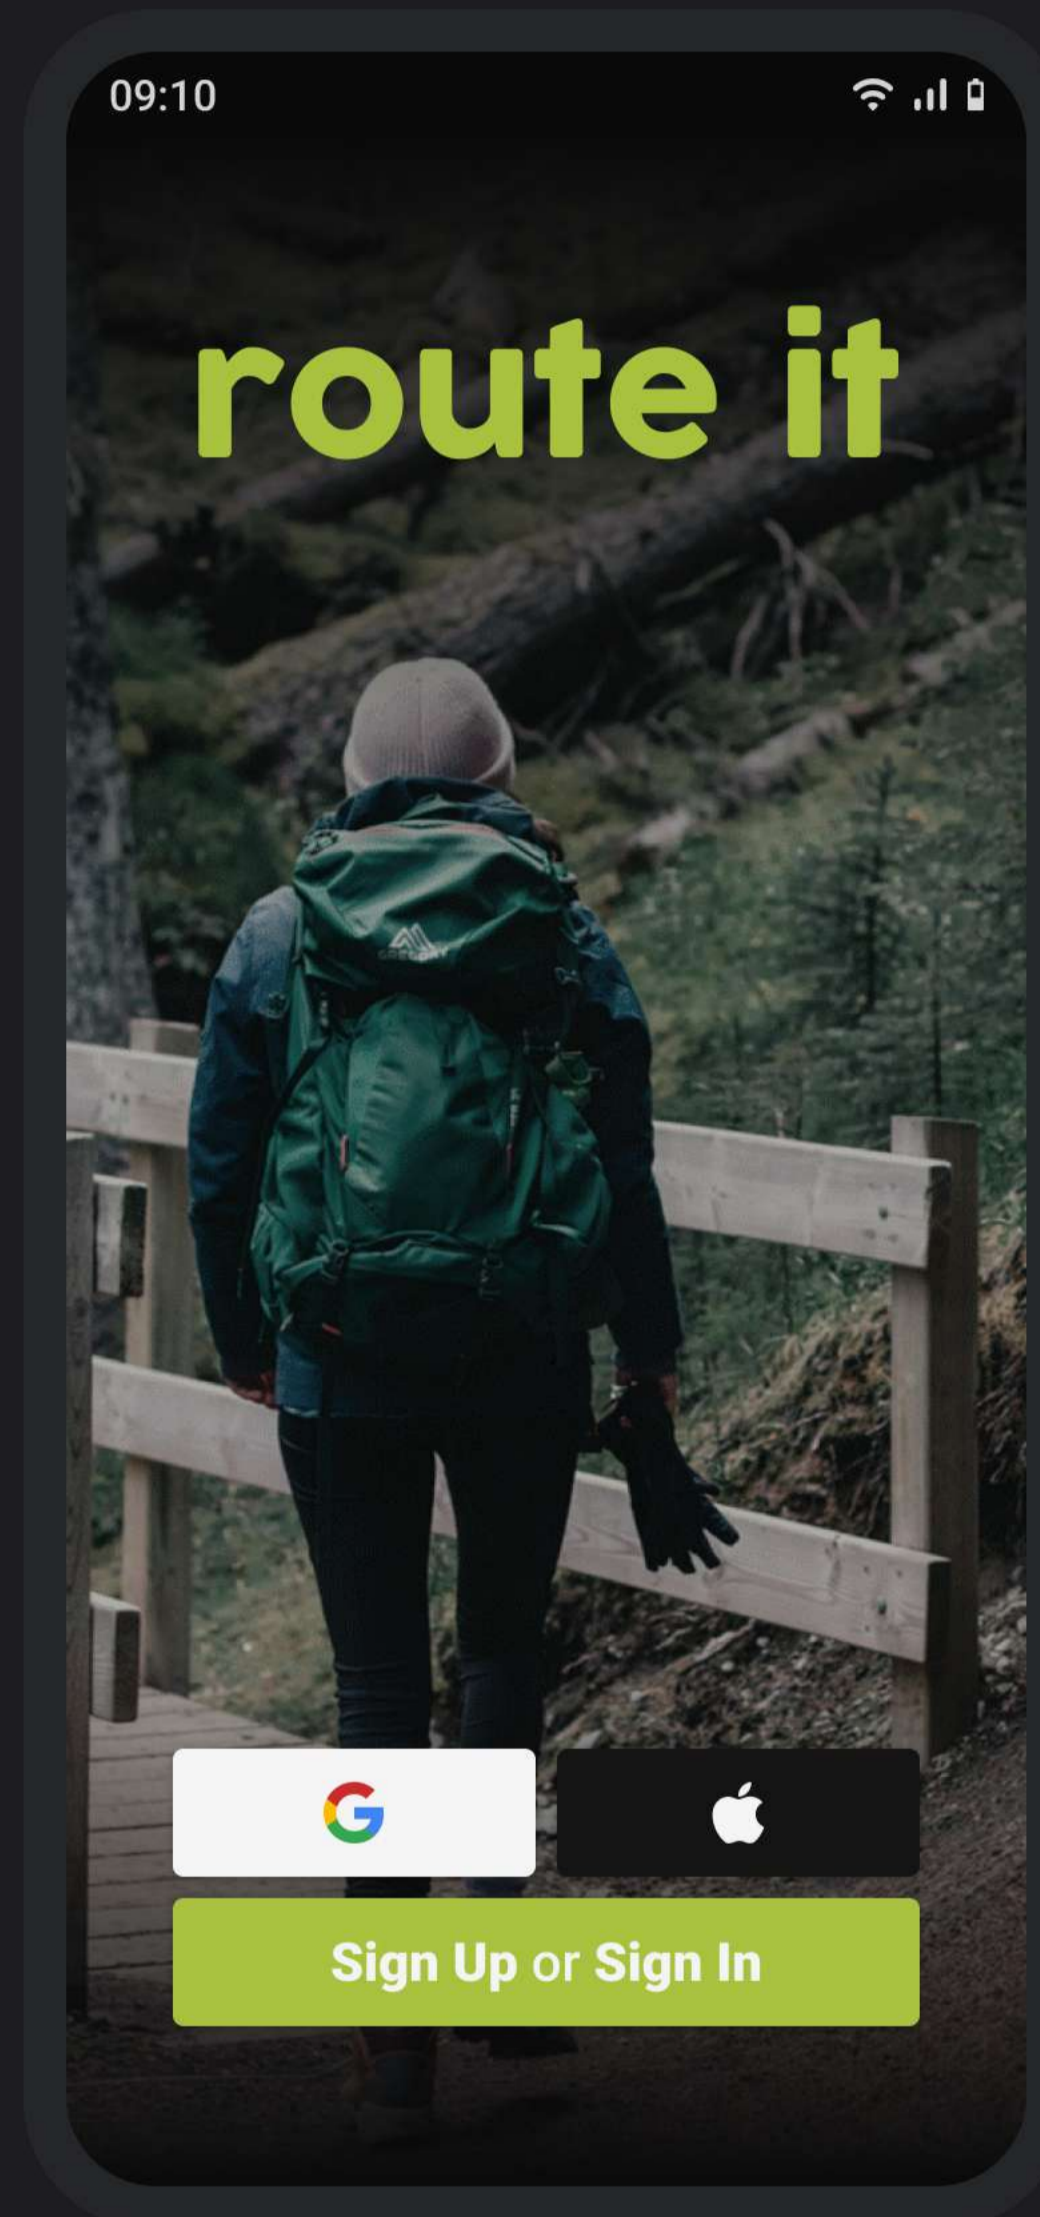

route it is a user interface design for smart product system.

it allows users to **document** their outdoor experiences with a detailed route, image, comment, and environment data. users can **share** these routes with **community**. also, they can **visit** each others' routes, add comments, and **review** them.

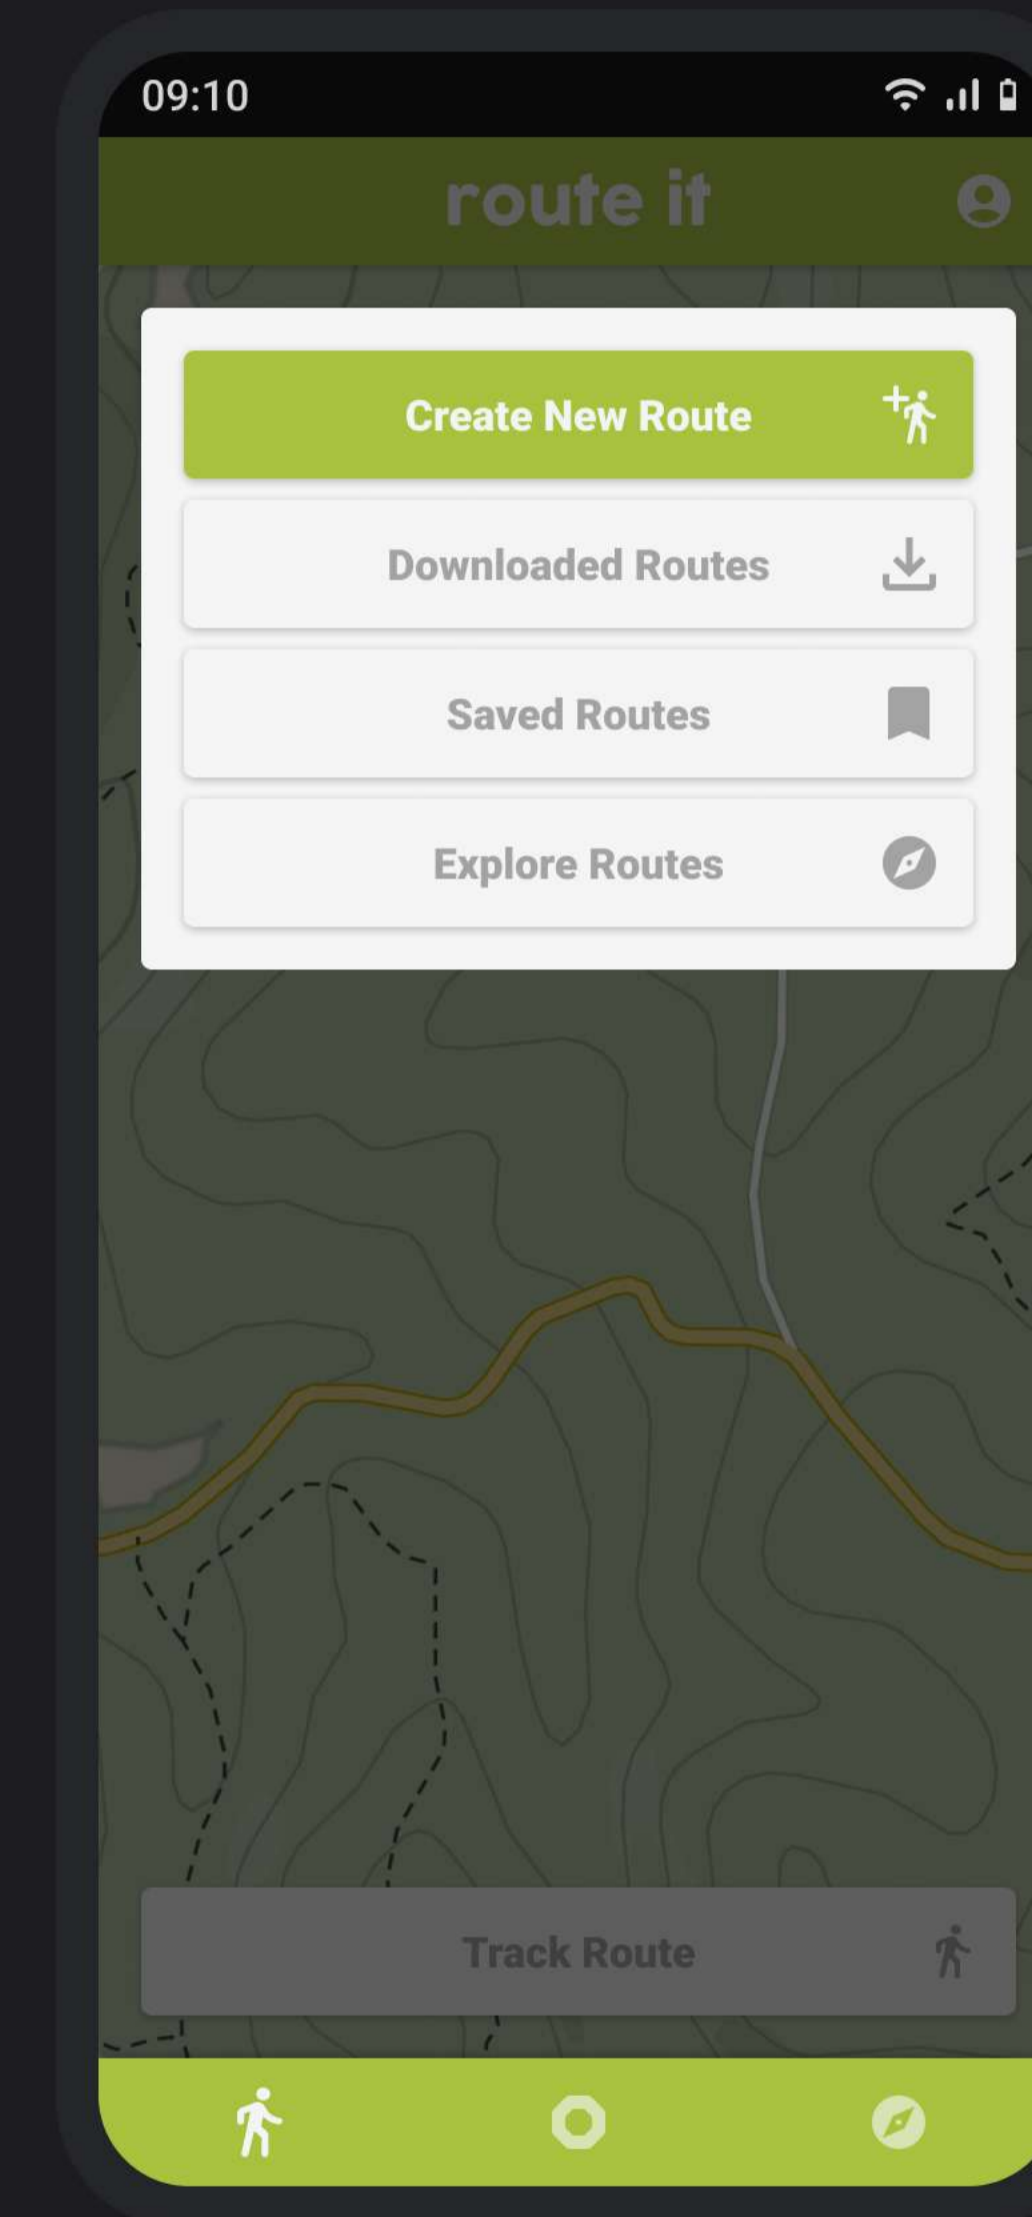

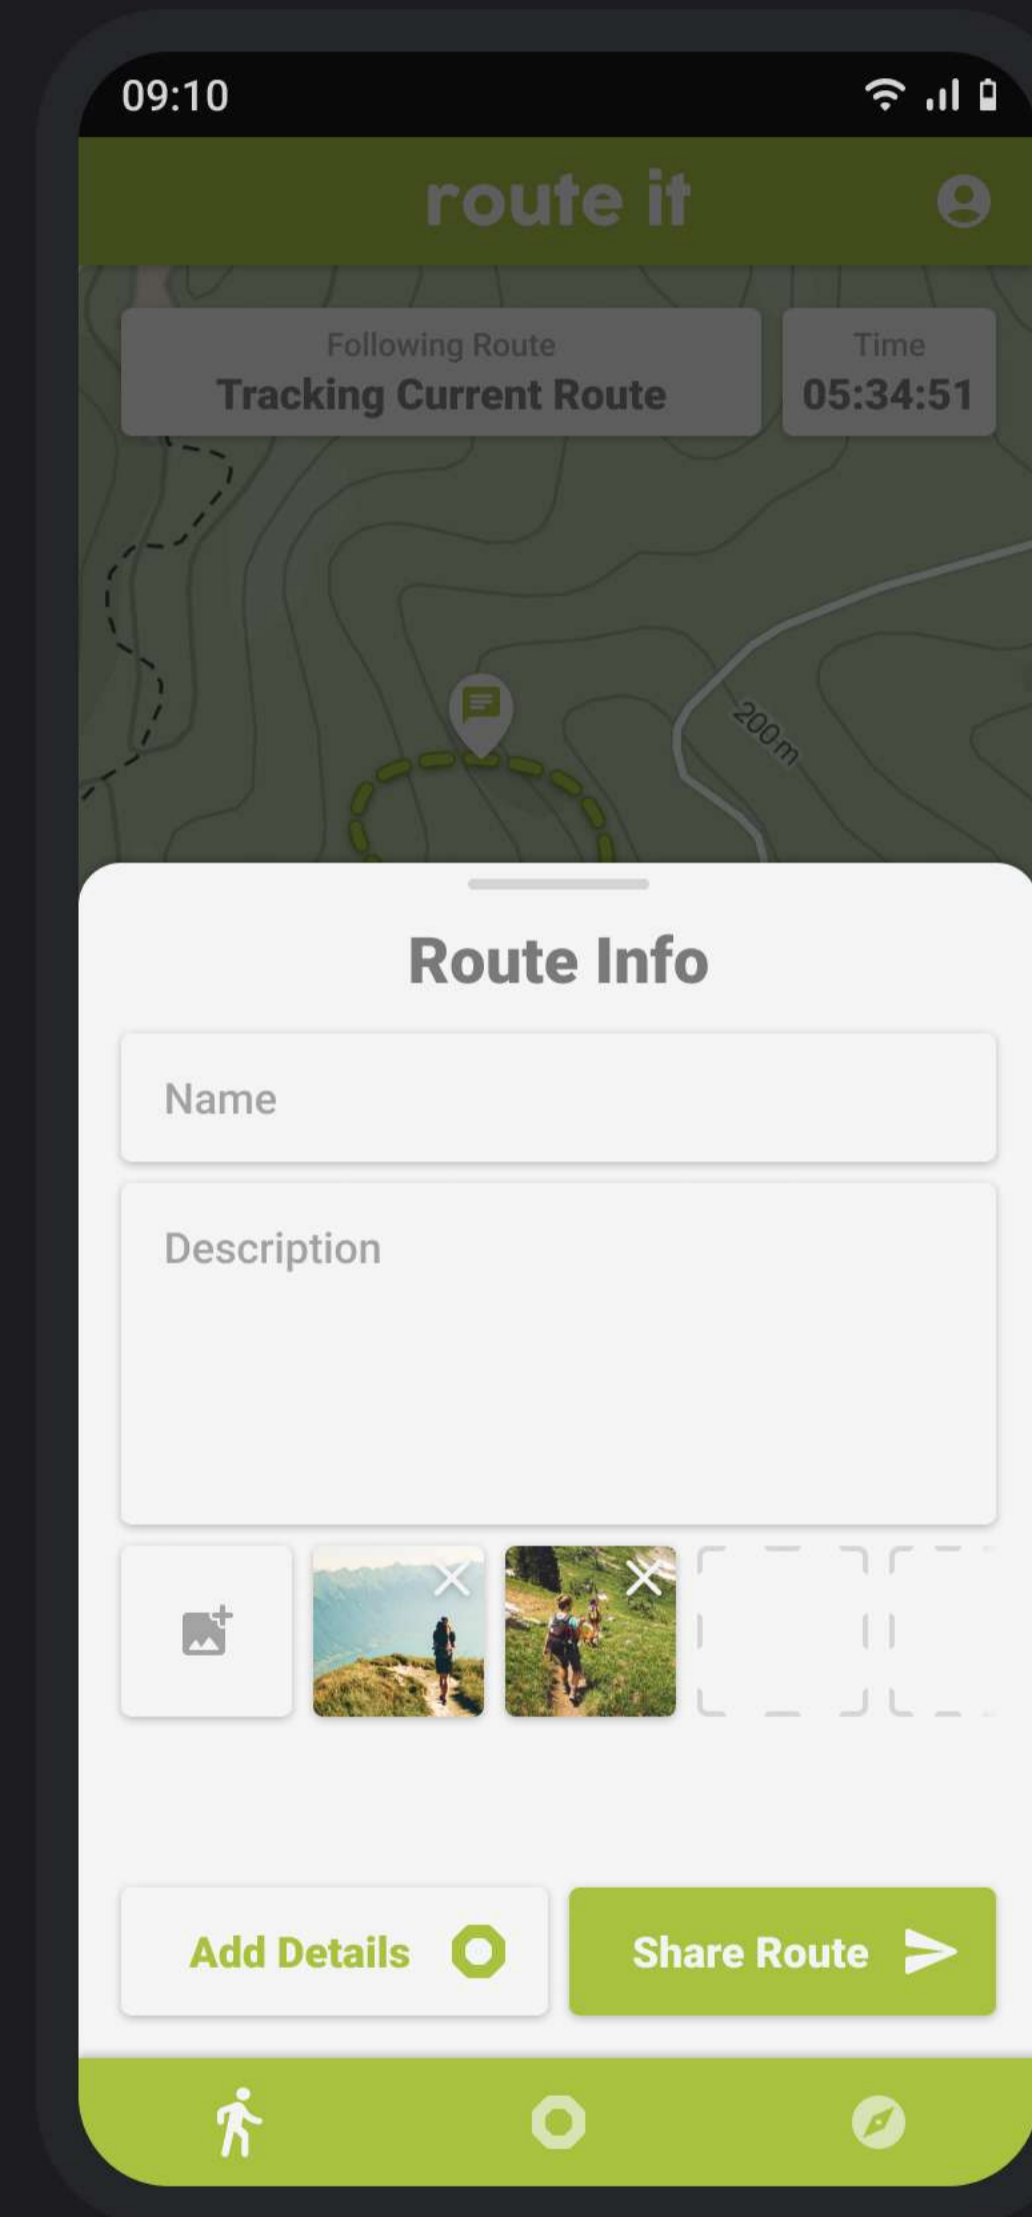

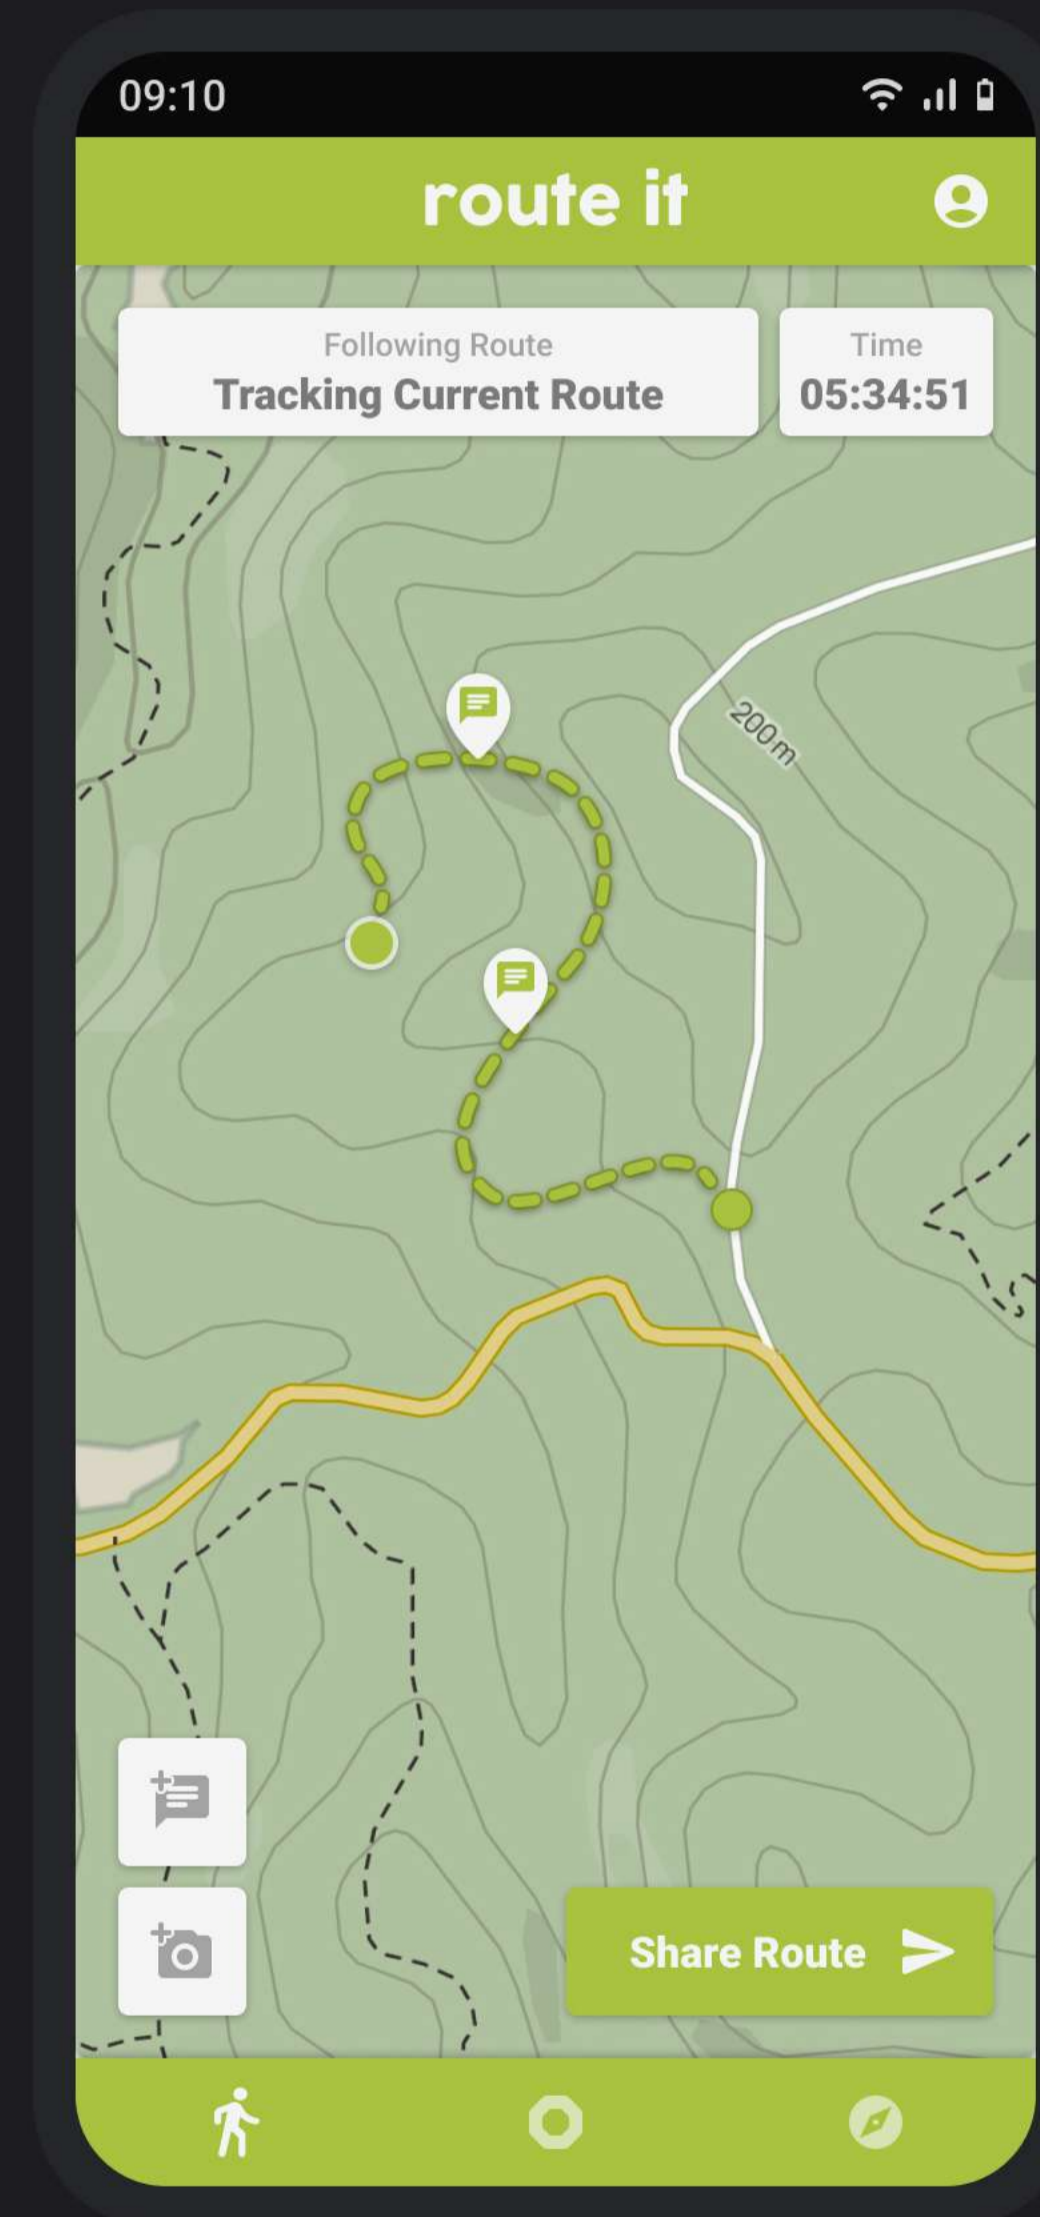

system provides a product for gathering data and recording route.

📅 june 2023

🕒 5 weeks

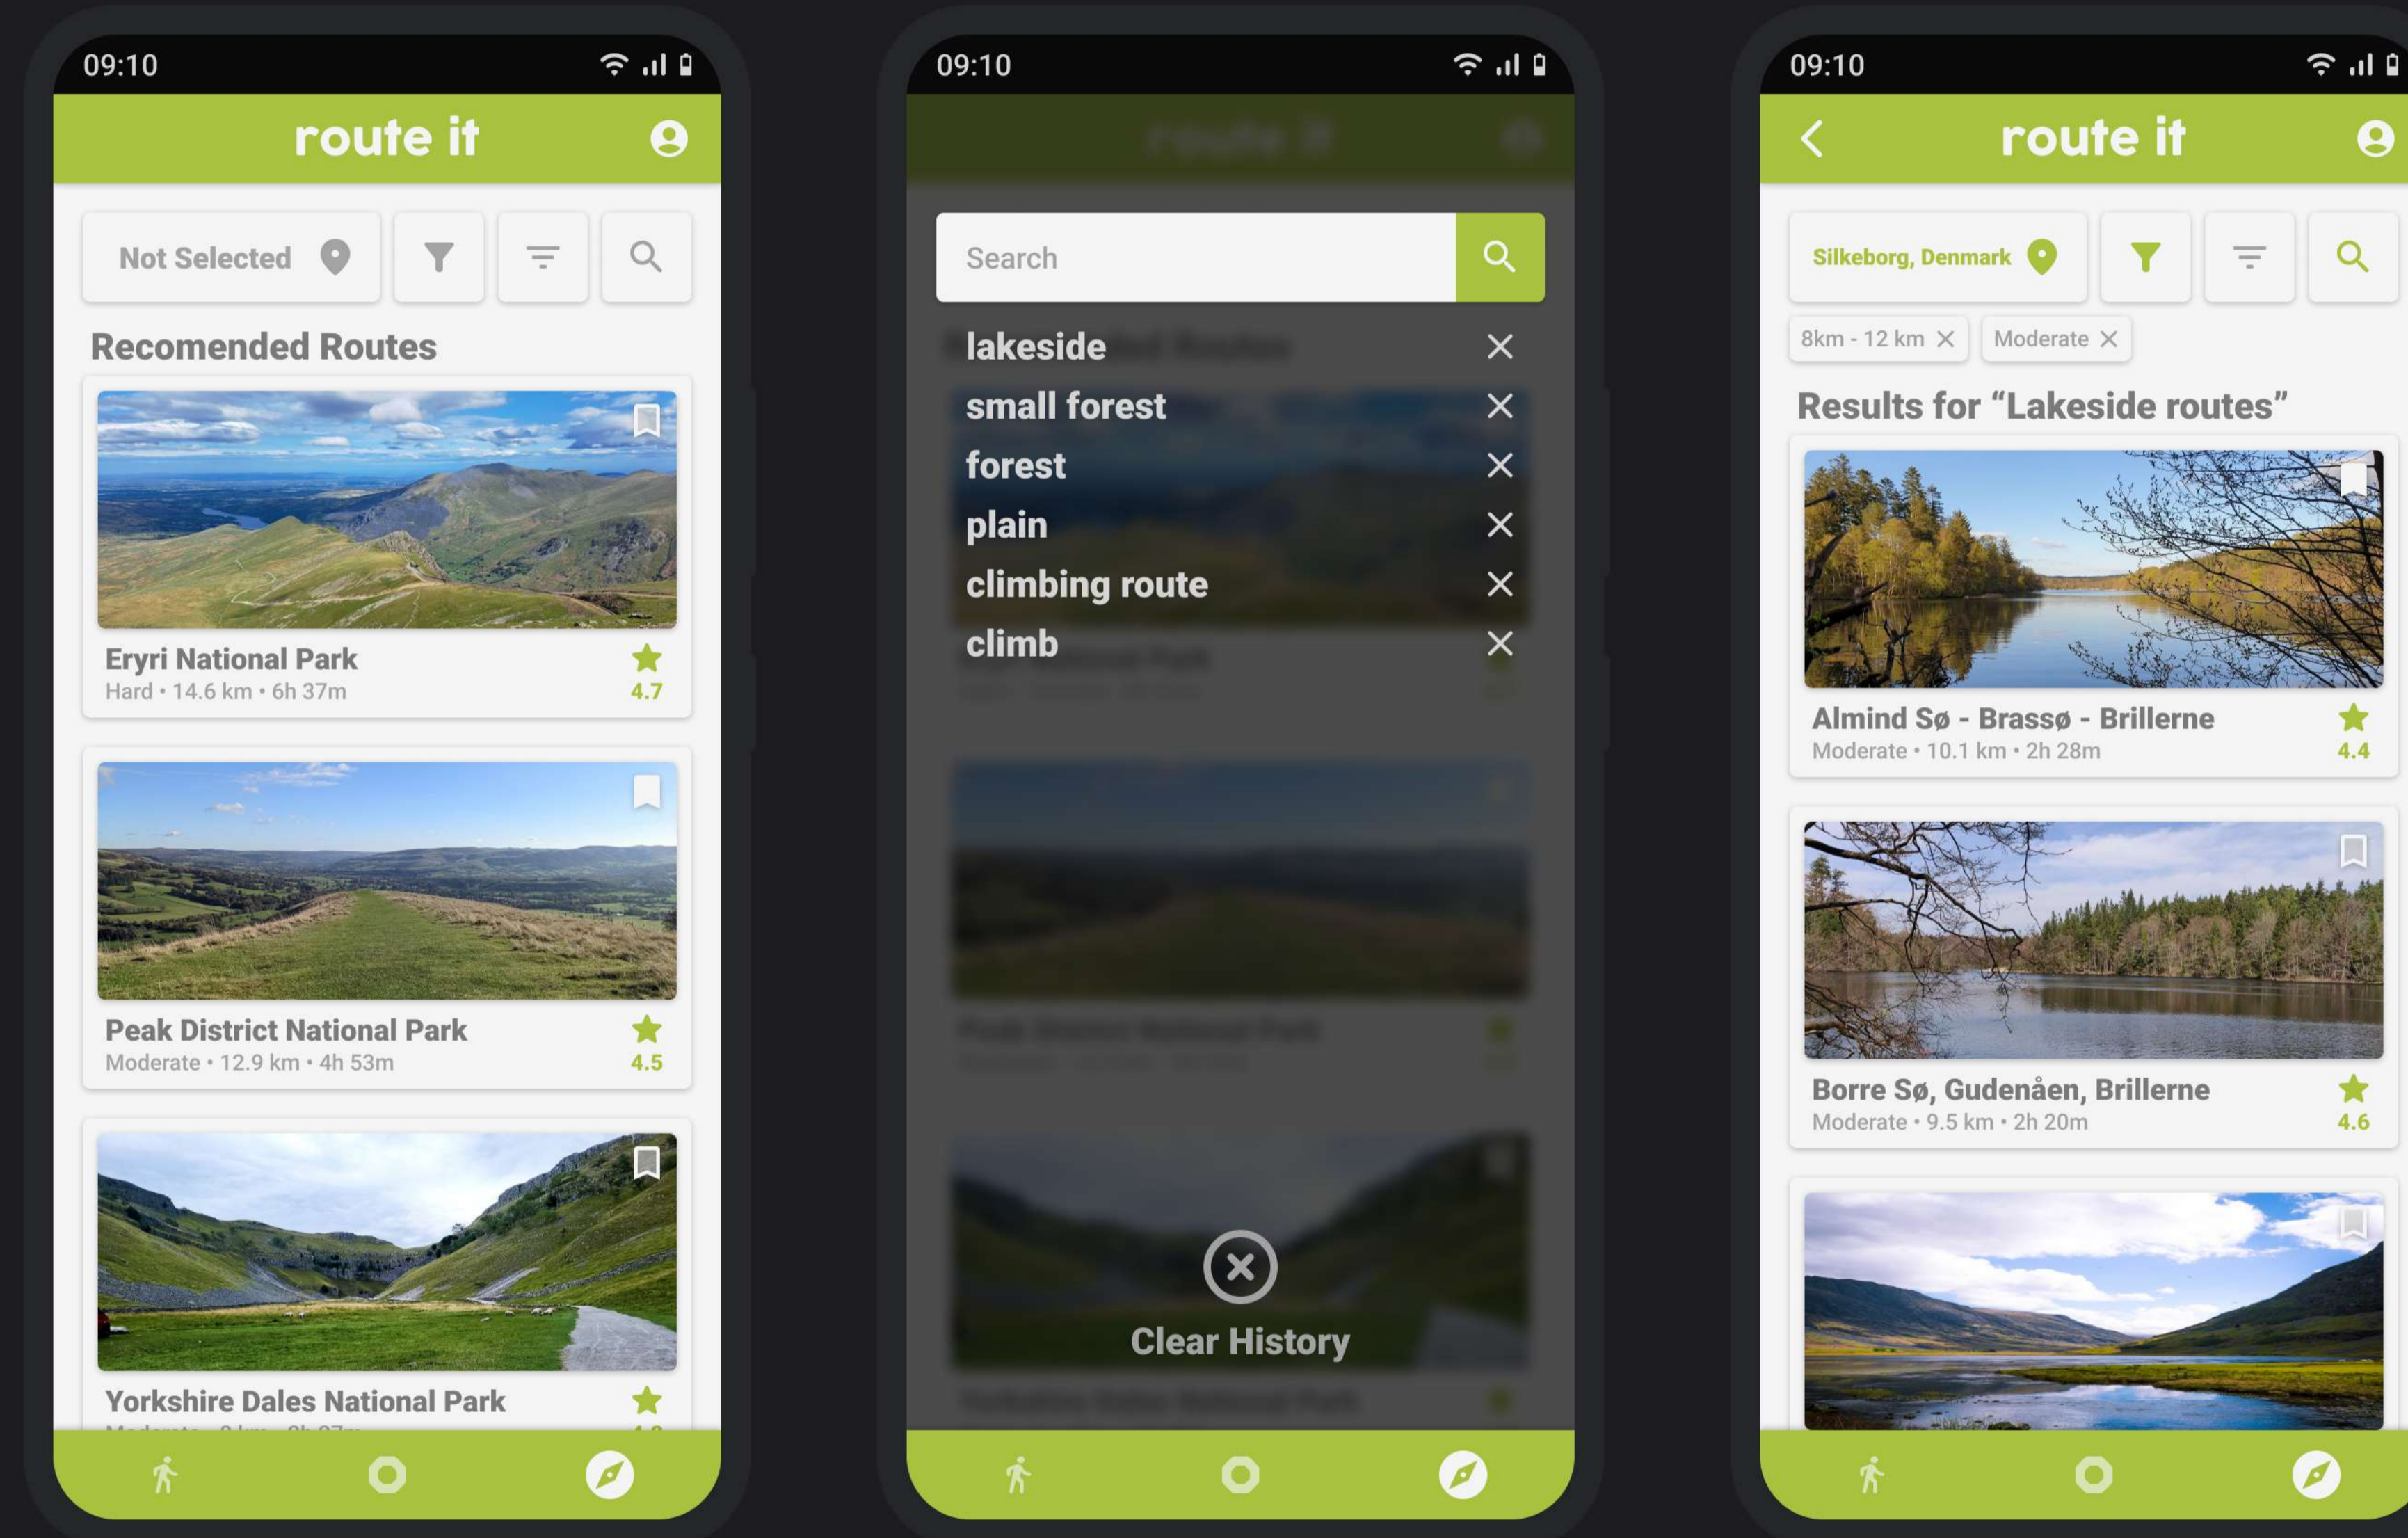

sign in/sign up with google, apple or e-mail.

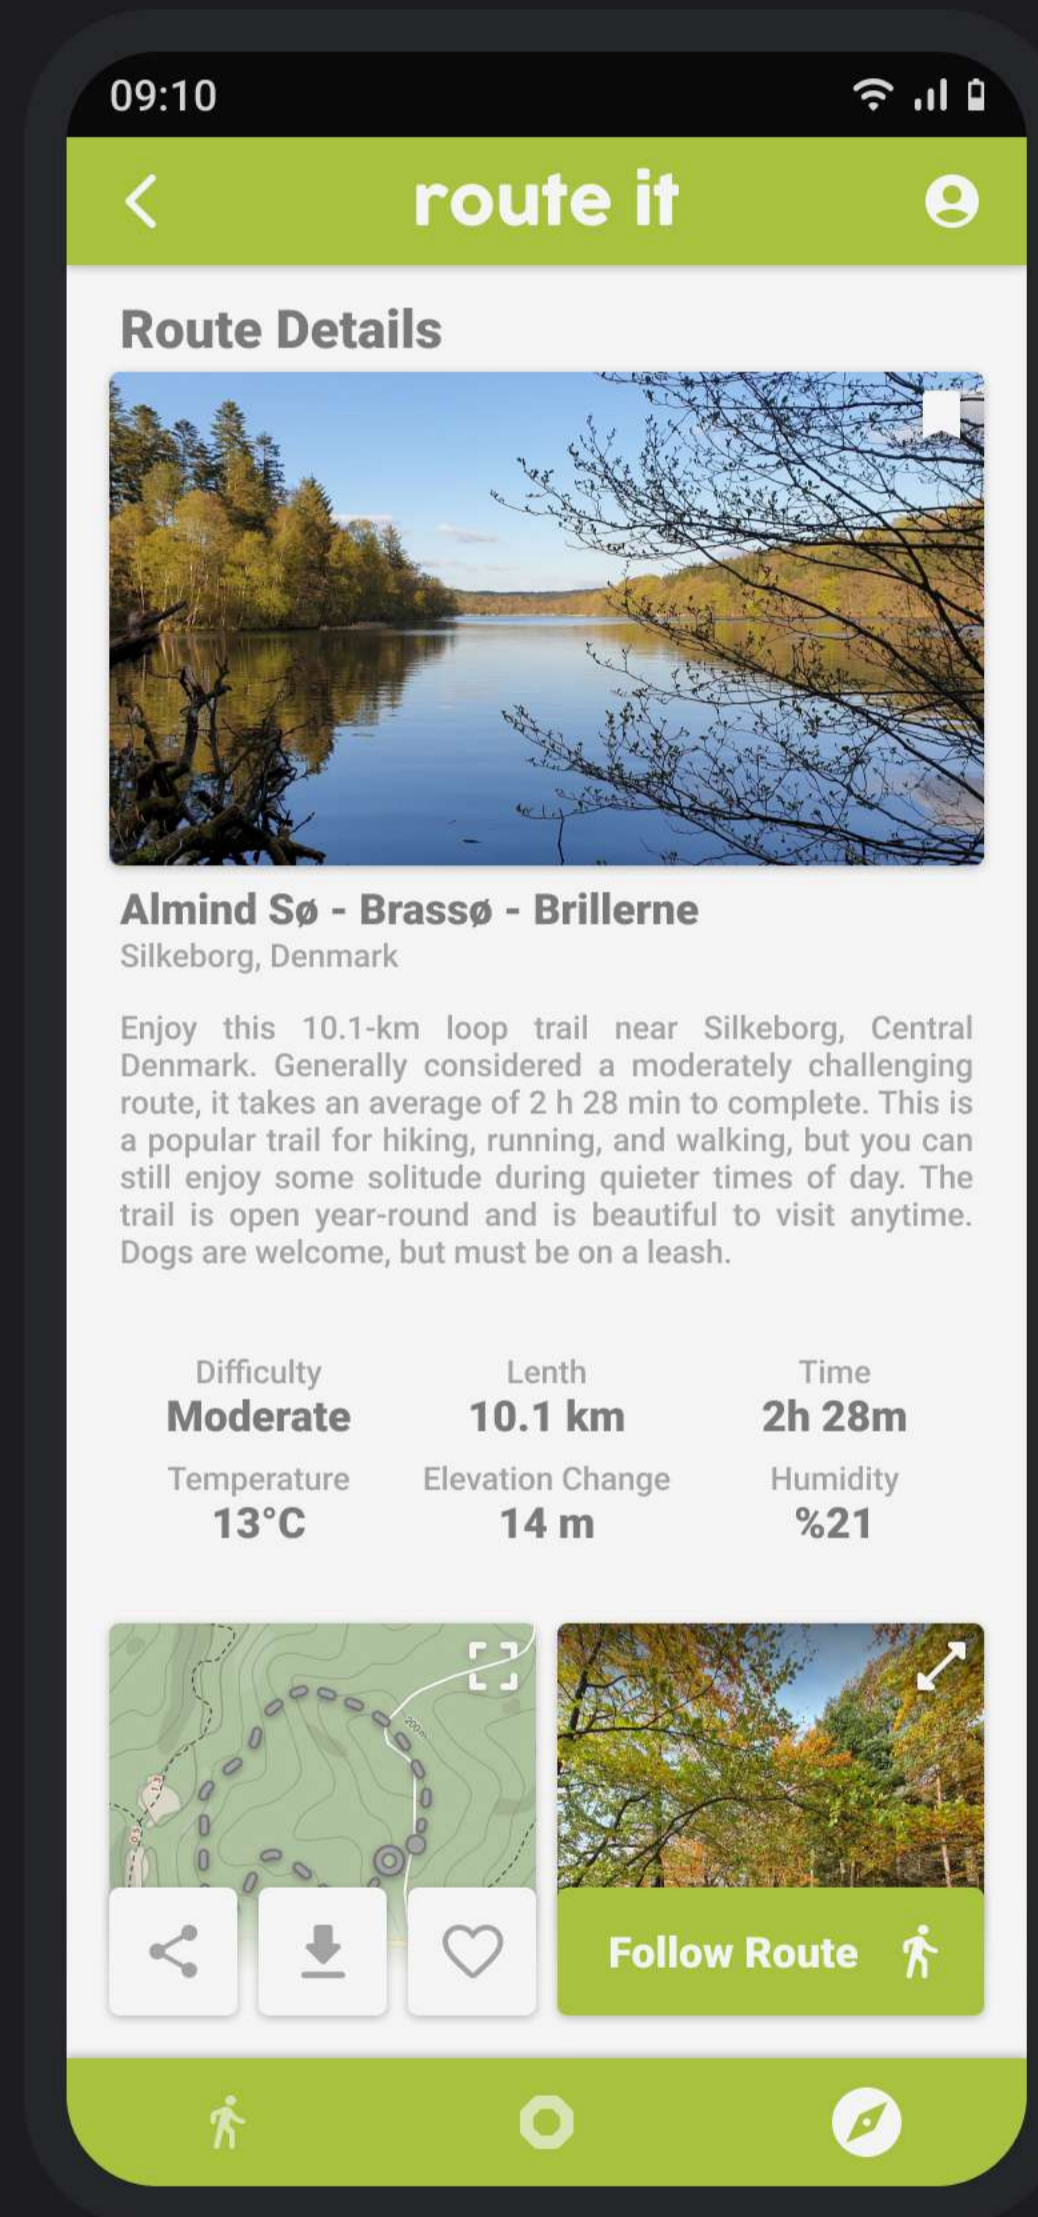

track your own route, **add** live comments/photos, and **share** it with environmental data.

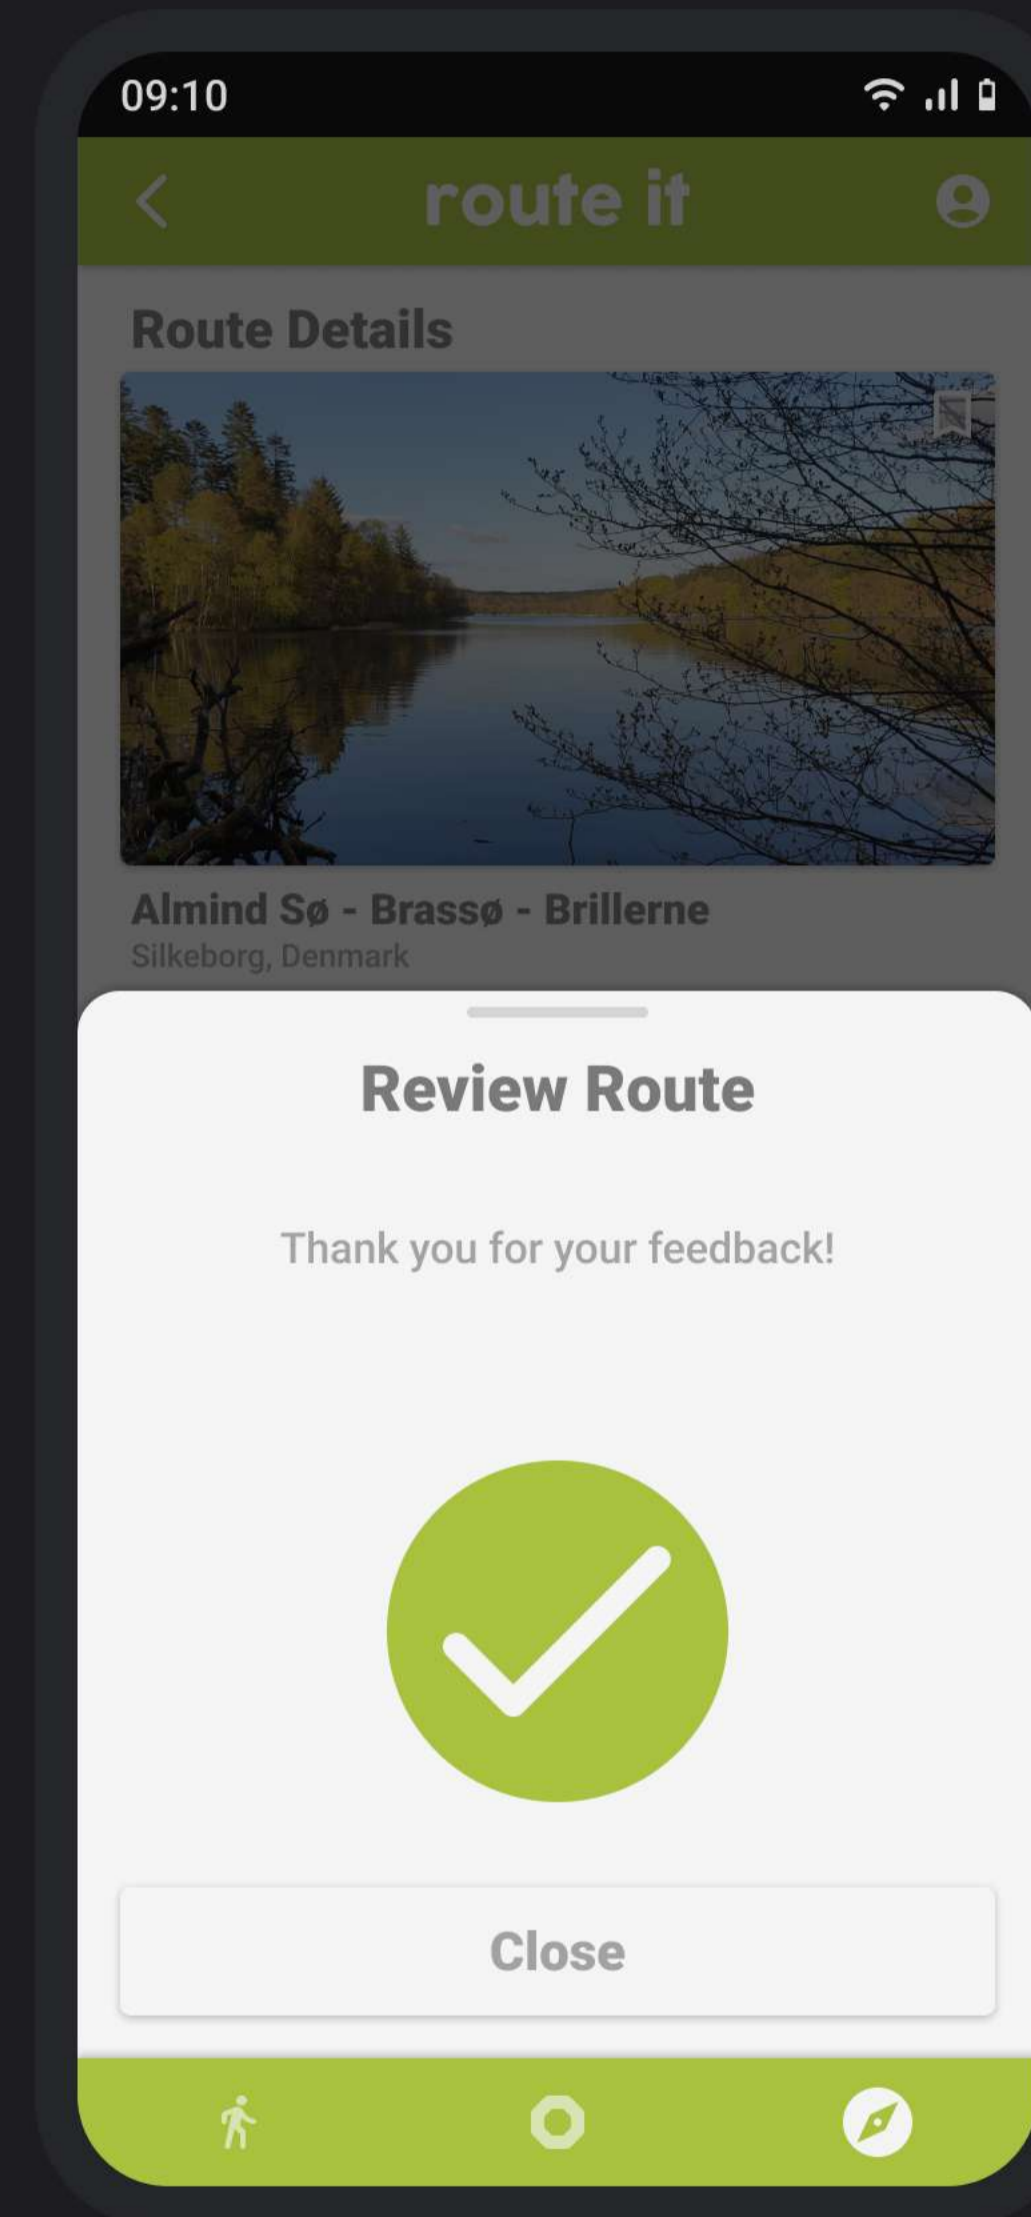

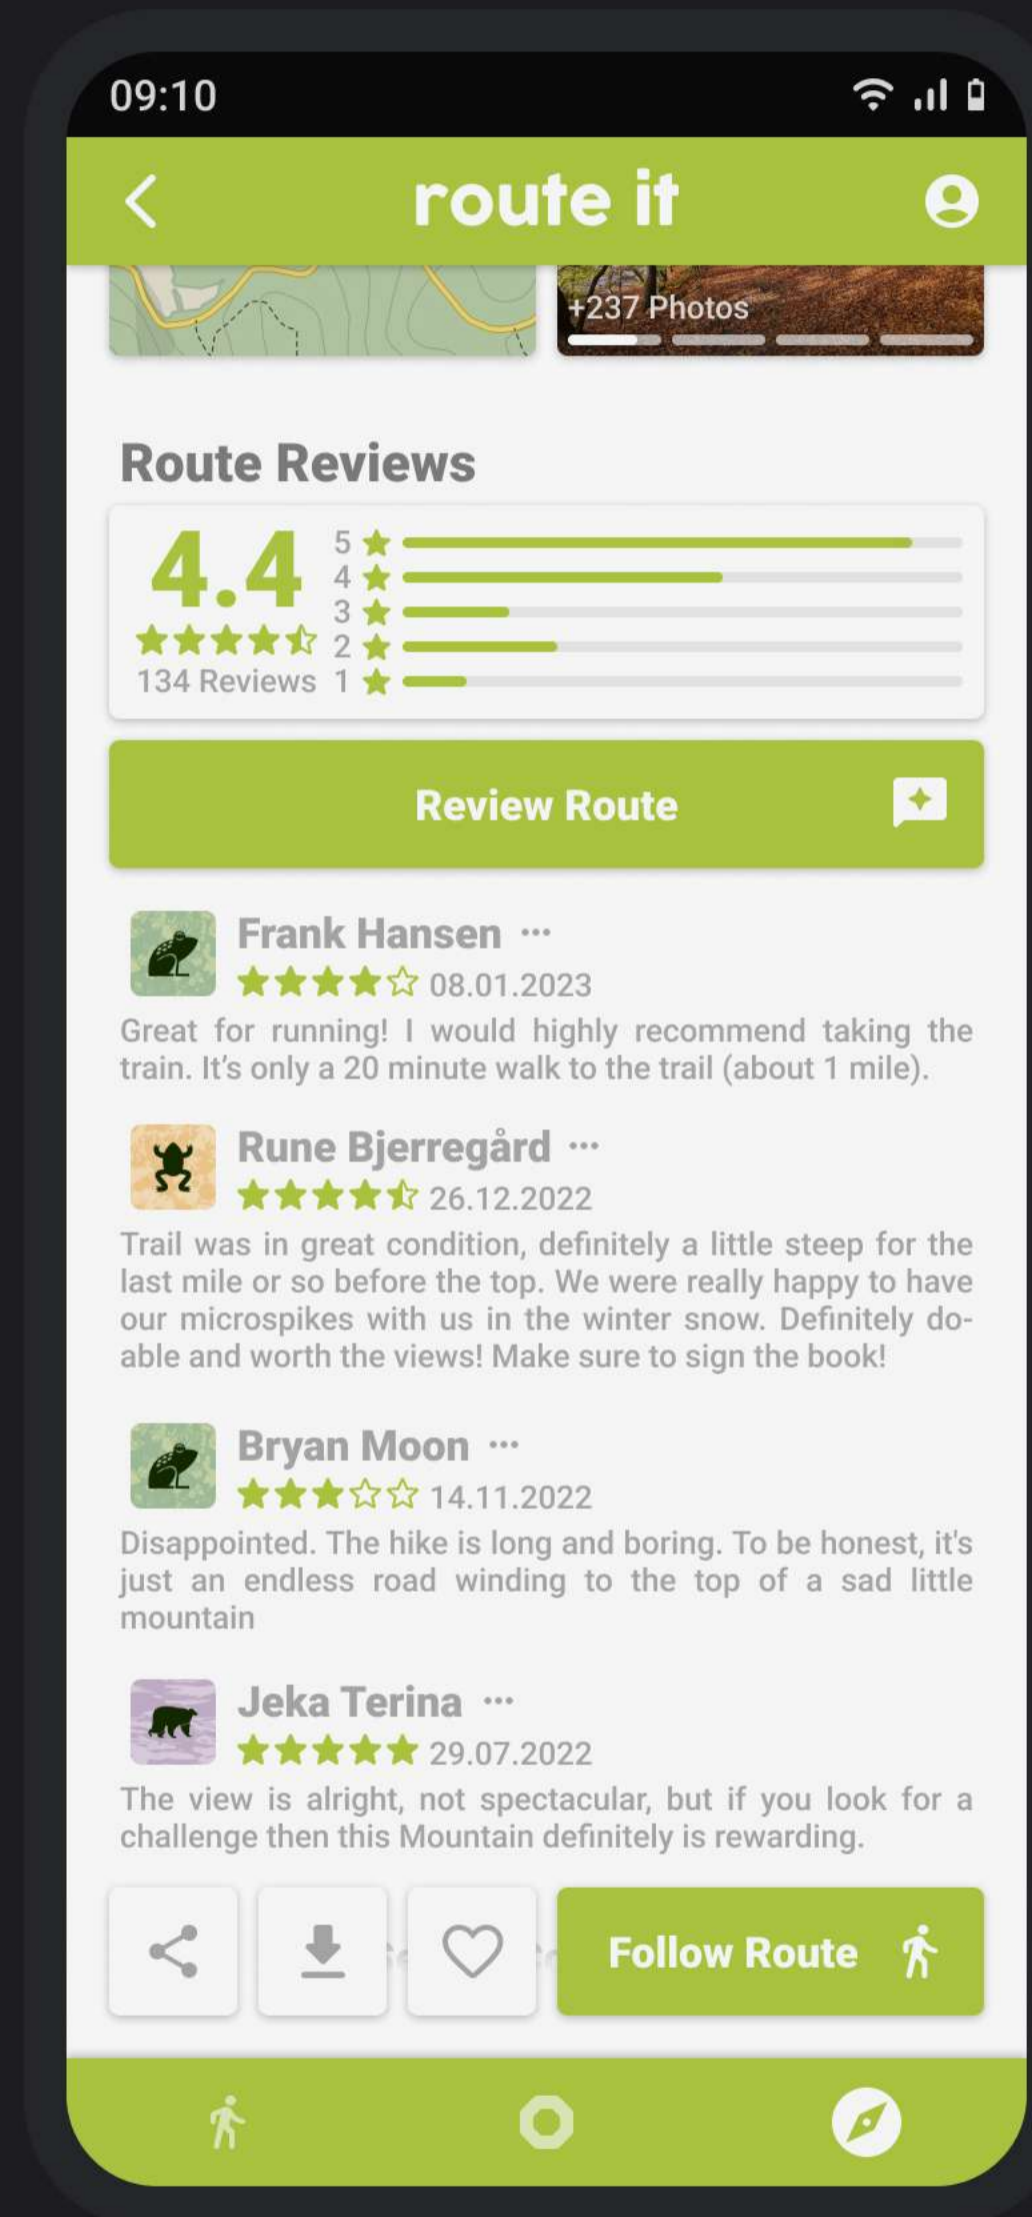

or **explore** other members' routes.

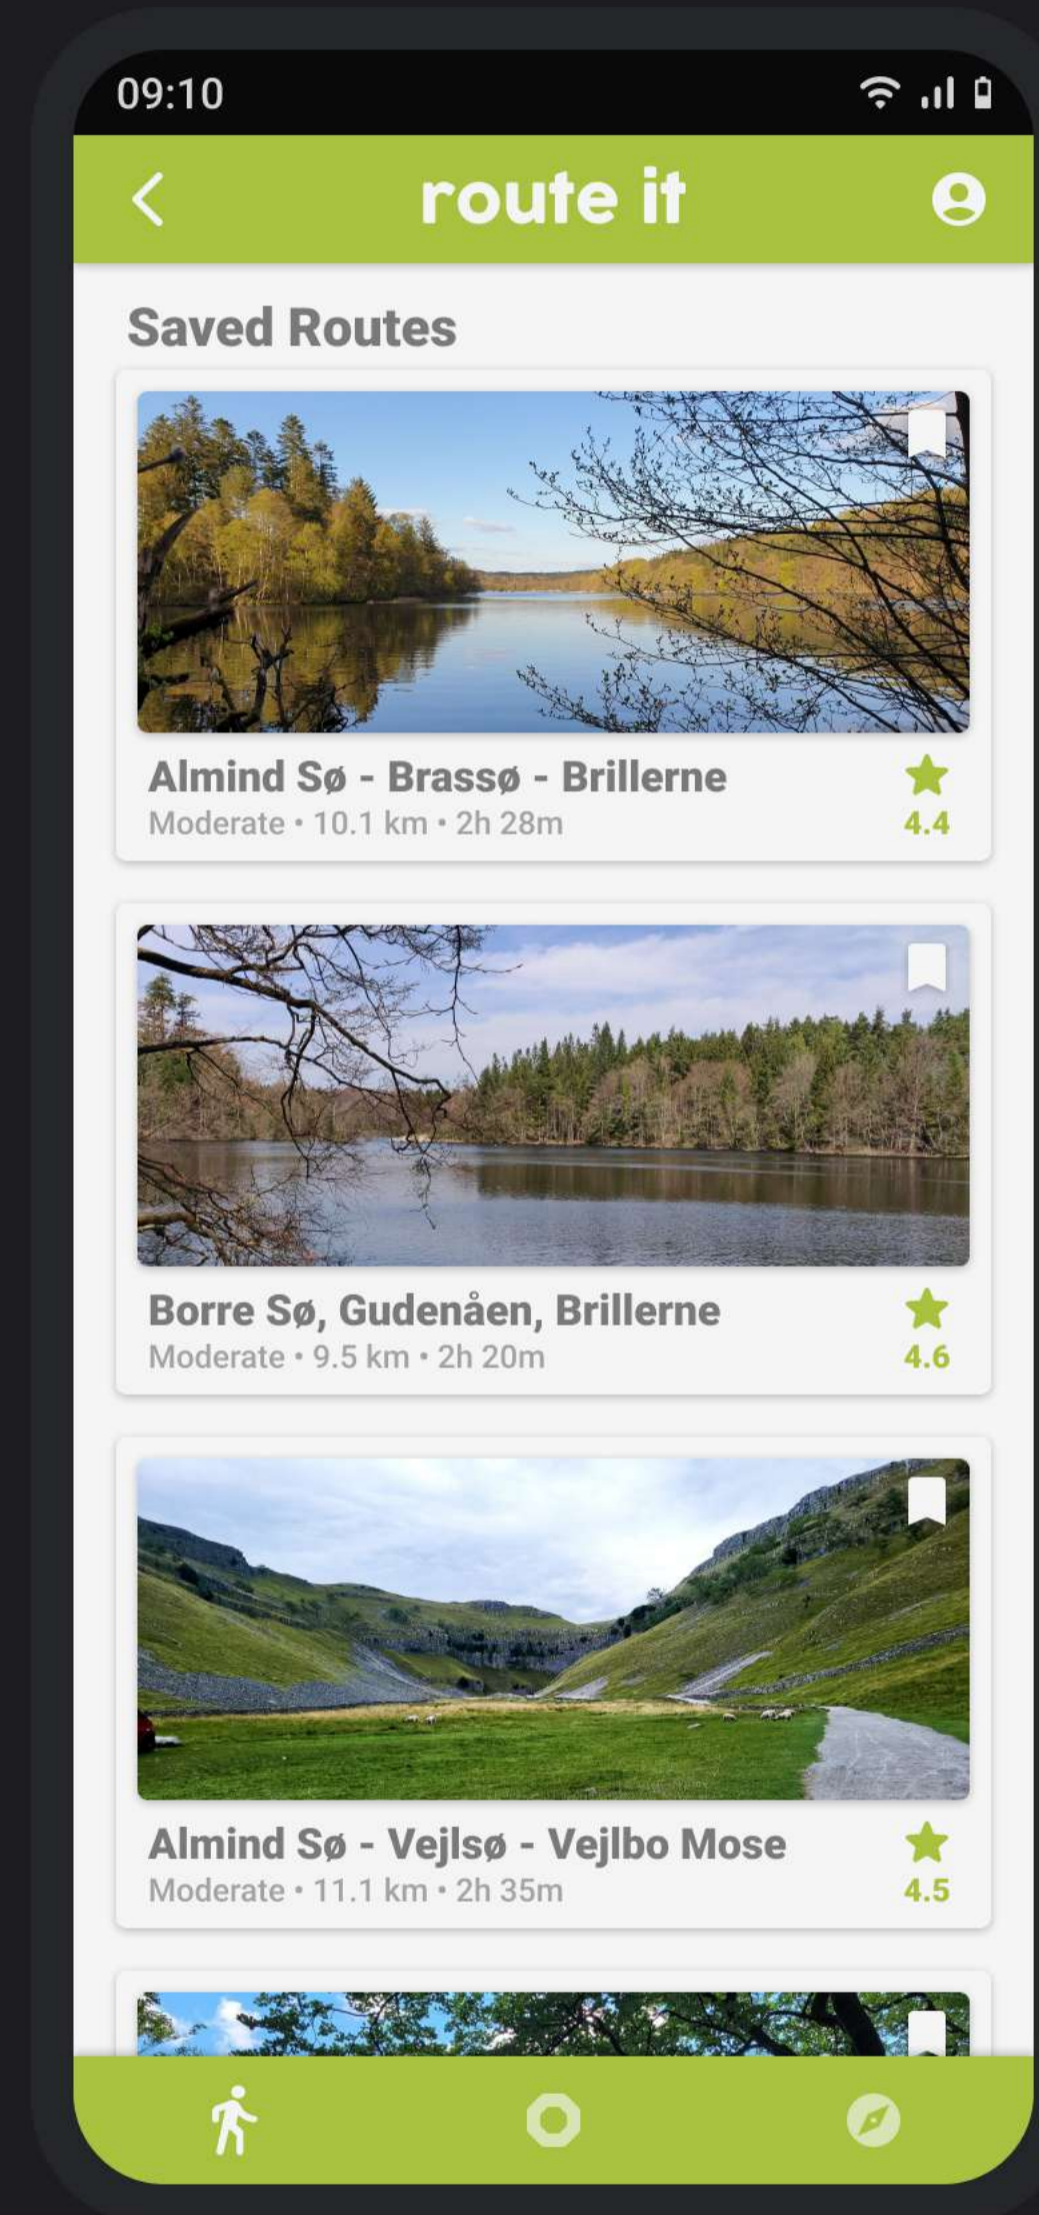

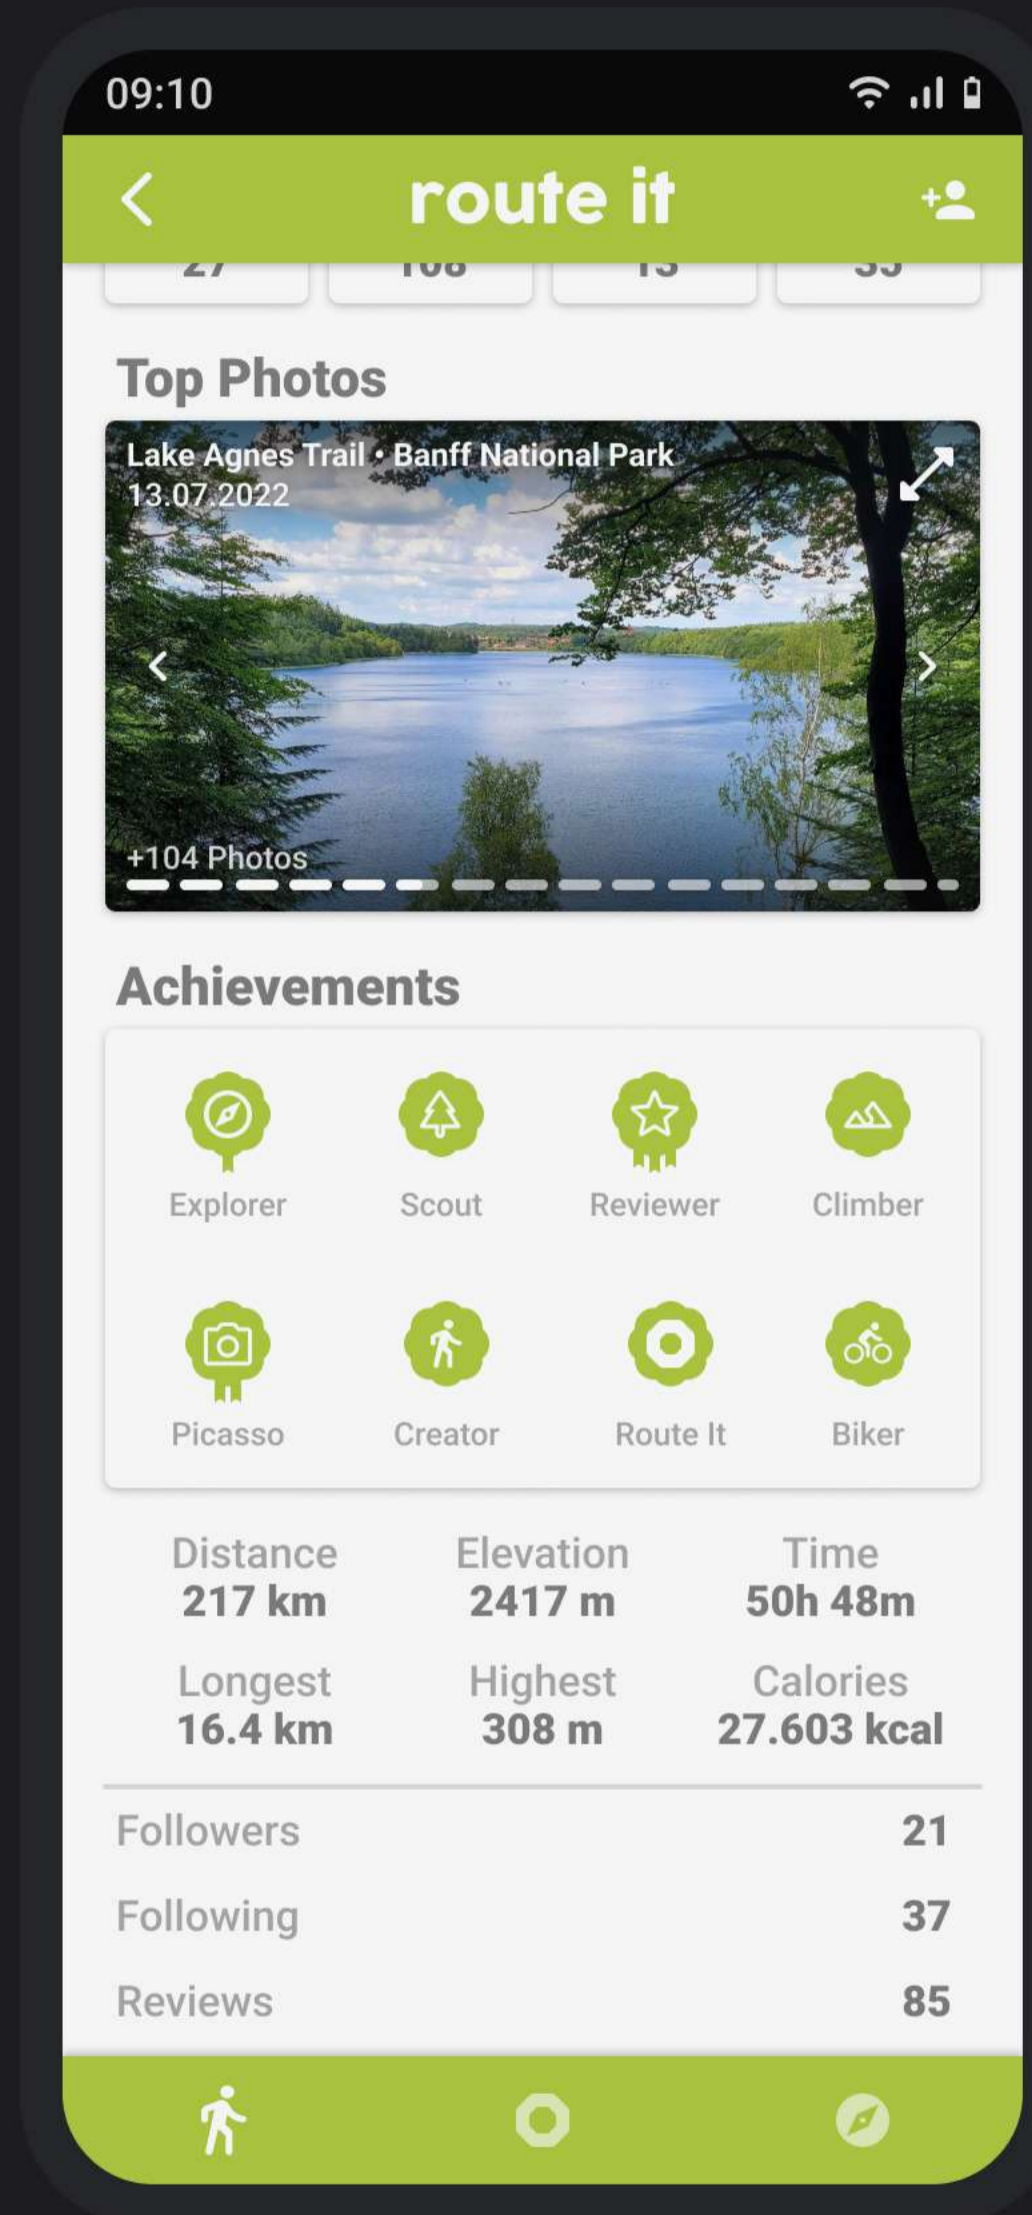

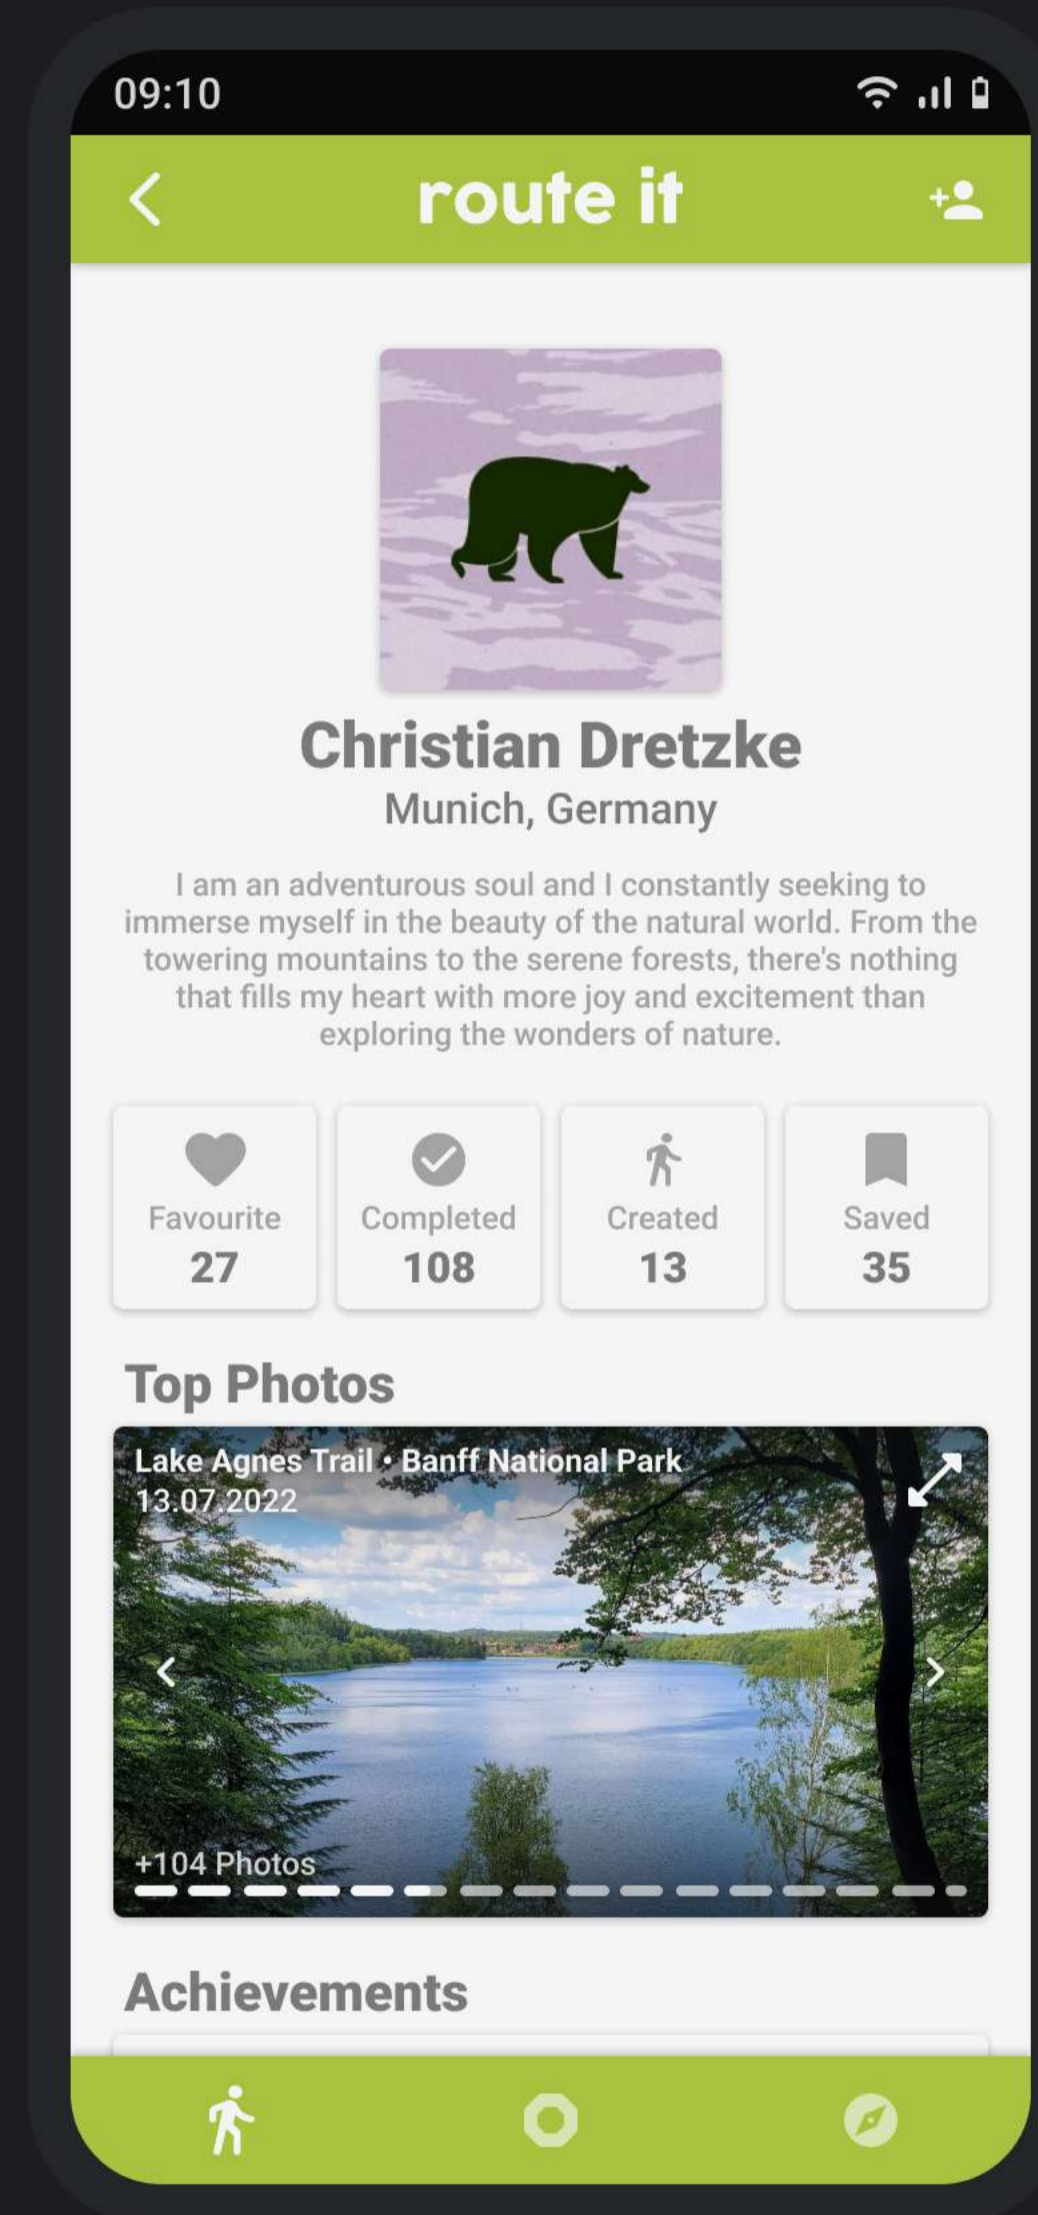

explore tab lets you **search** and **filter** the routes and find the most suitable route for you.

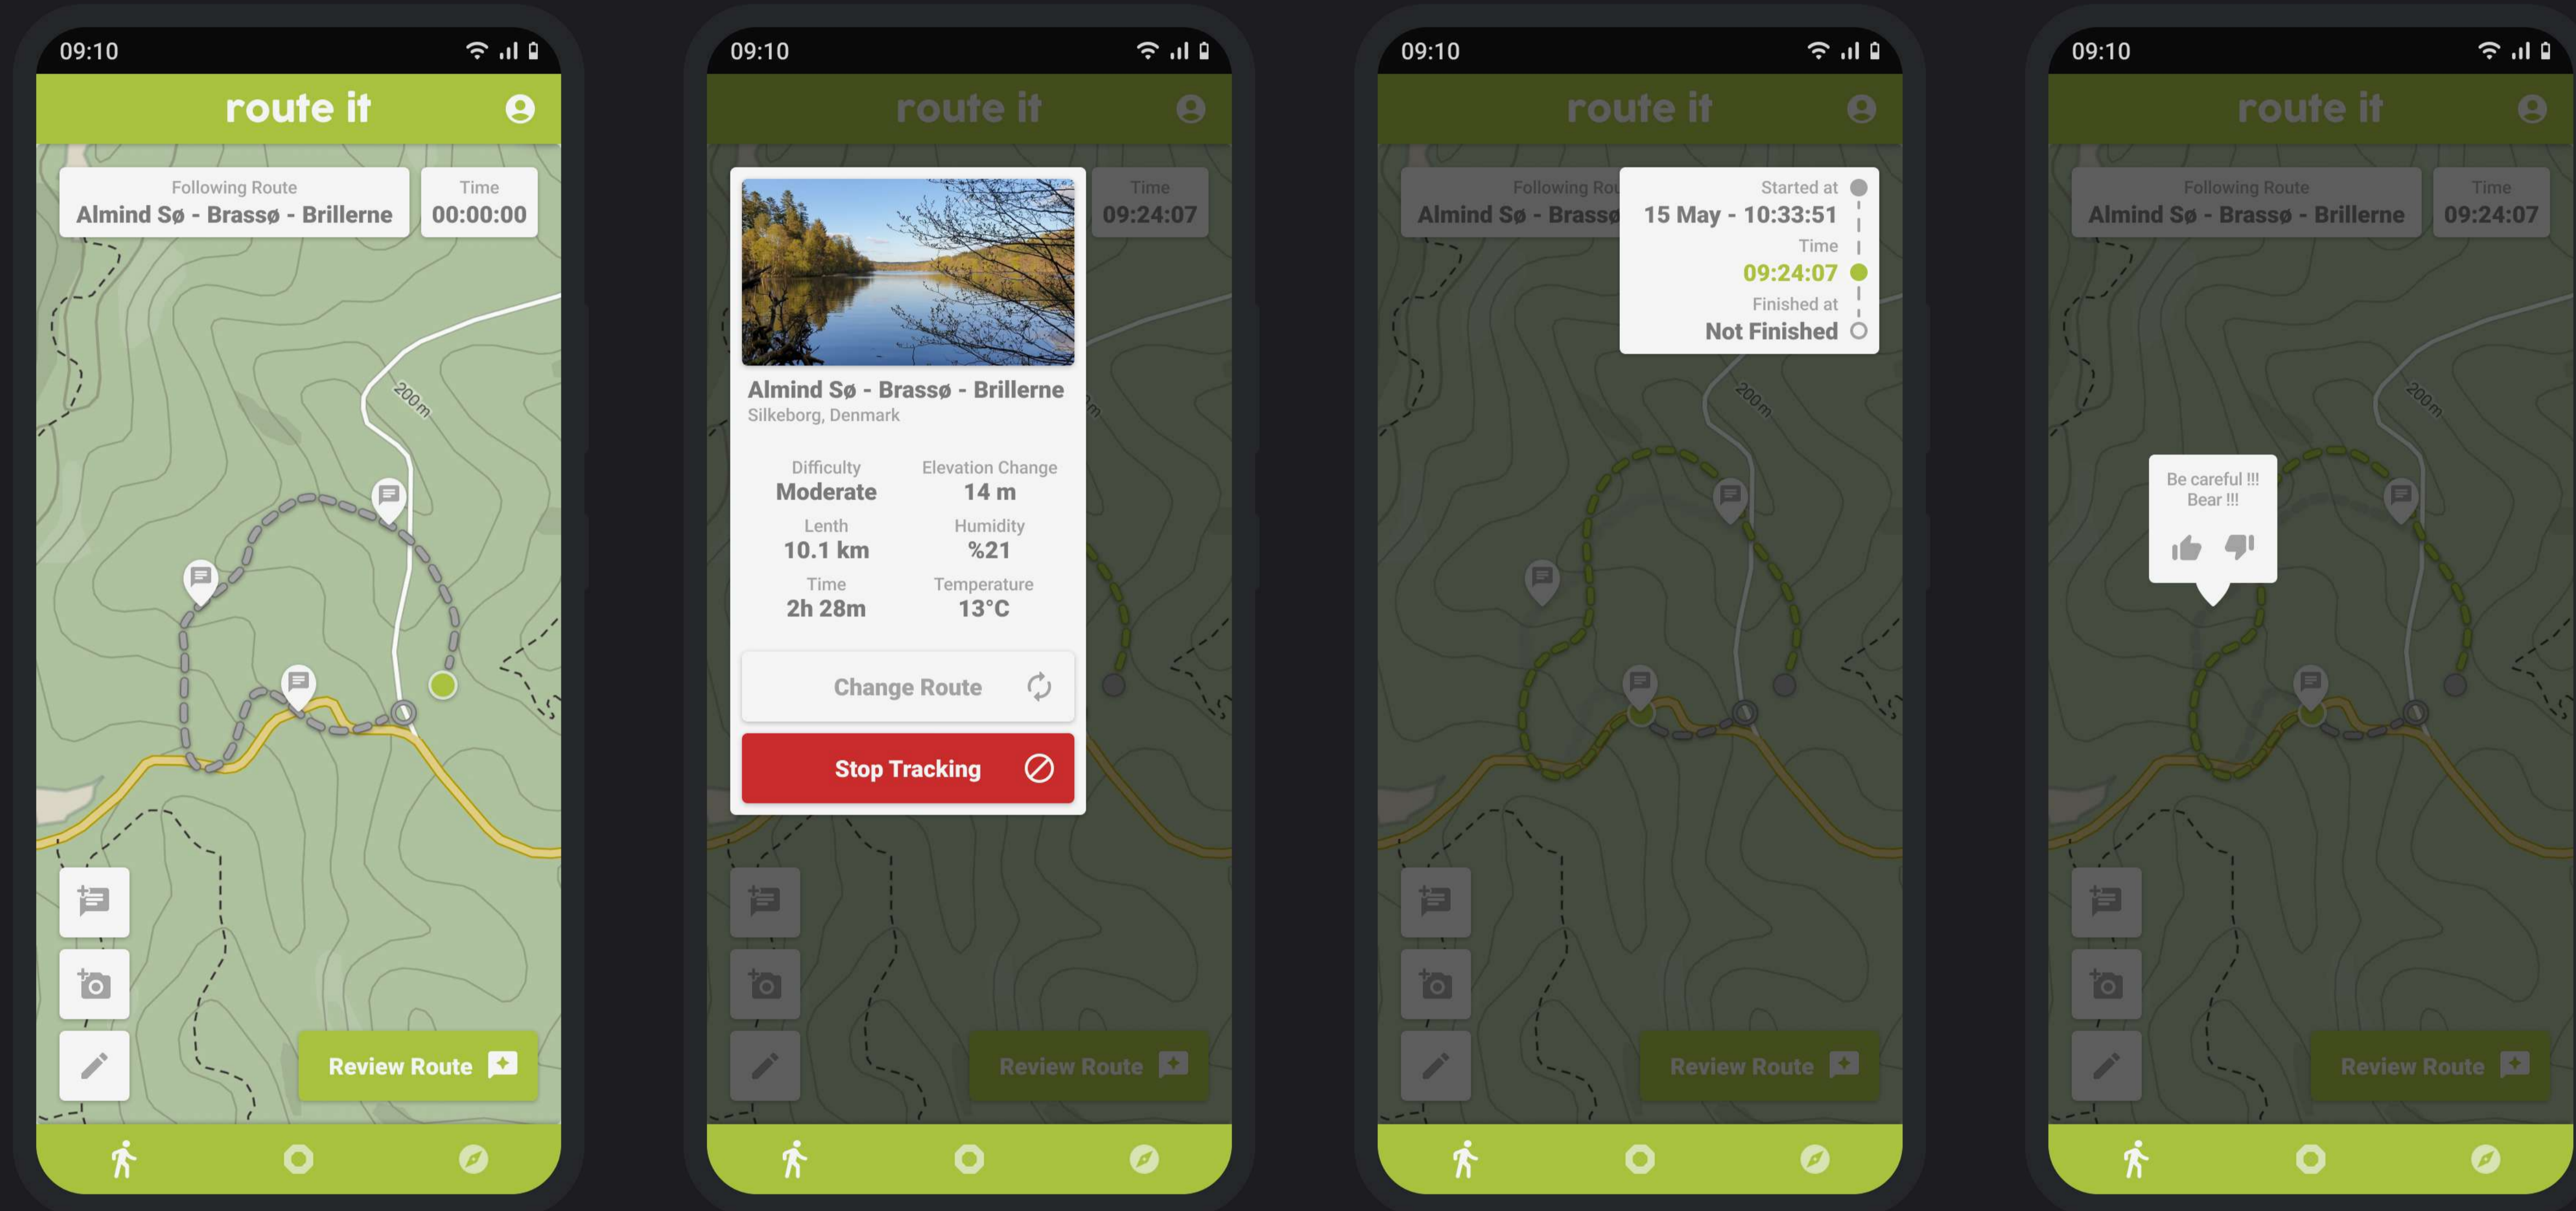

before visiting you can **check details**, photos, and comments about the route.

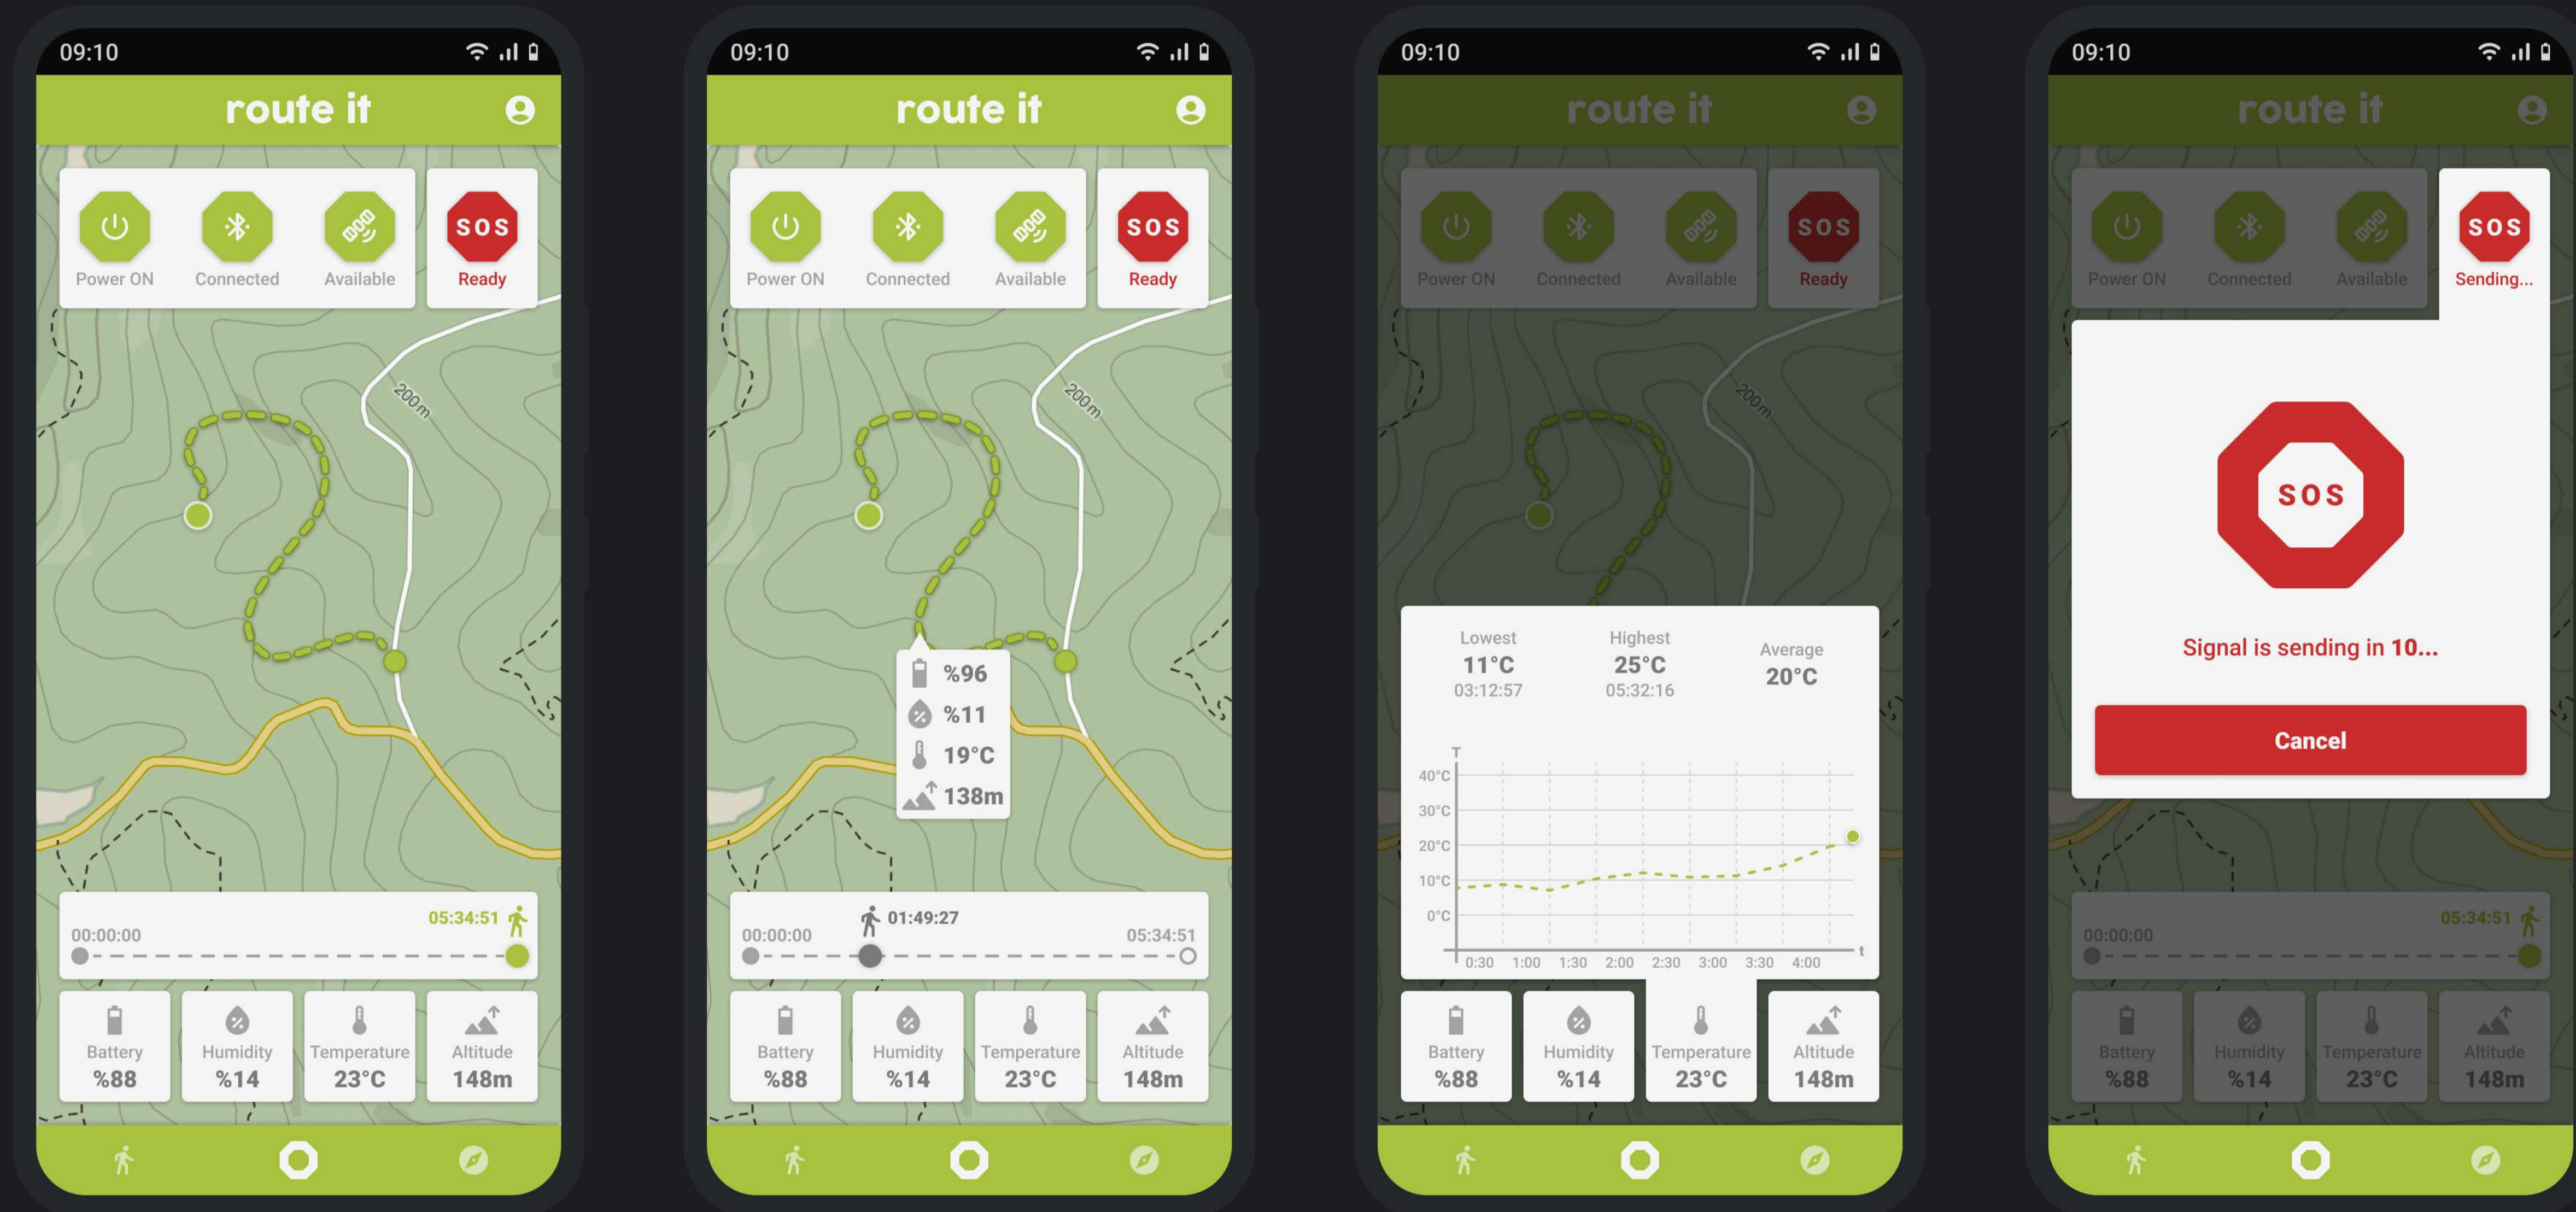

afterwards, you can **review** it.

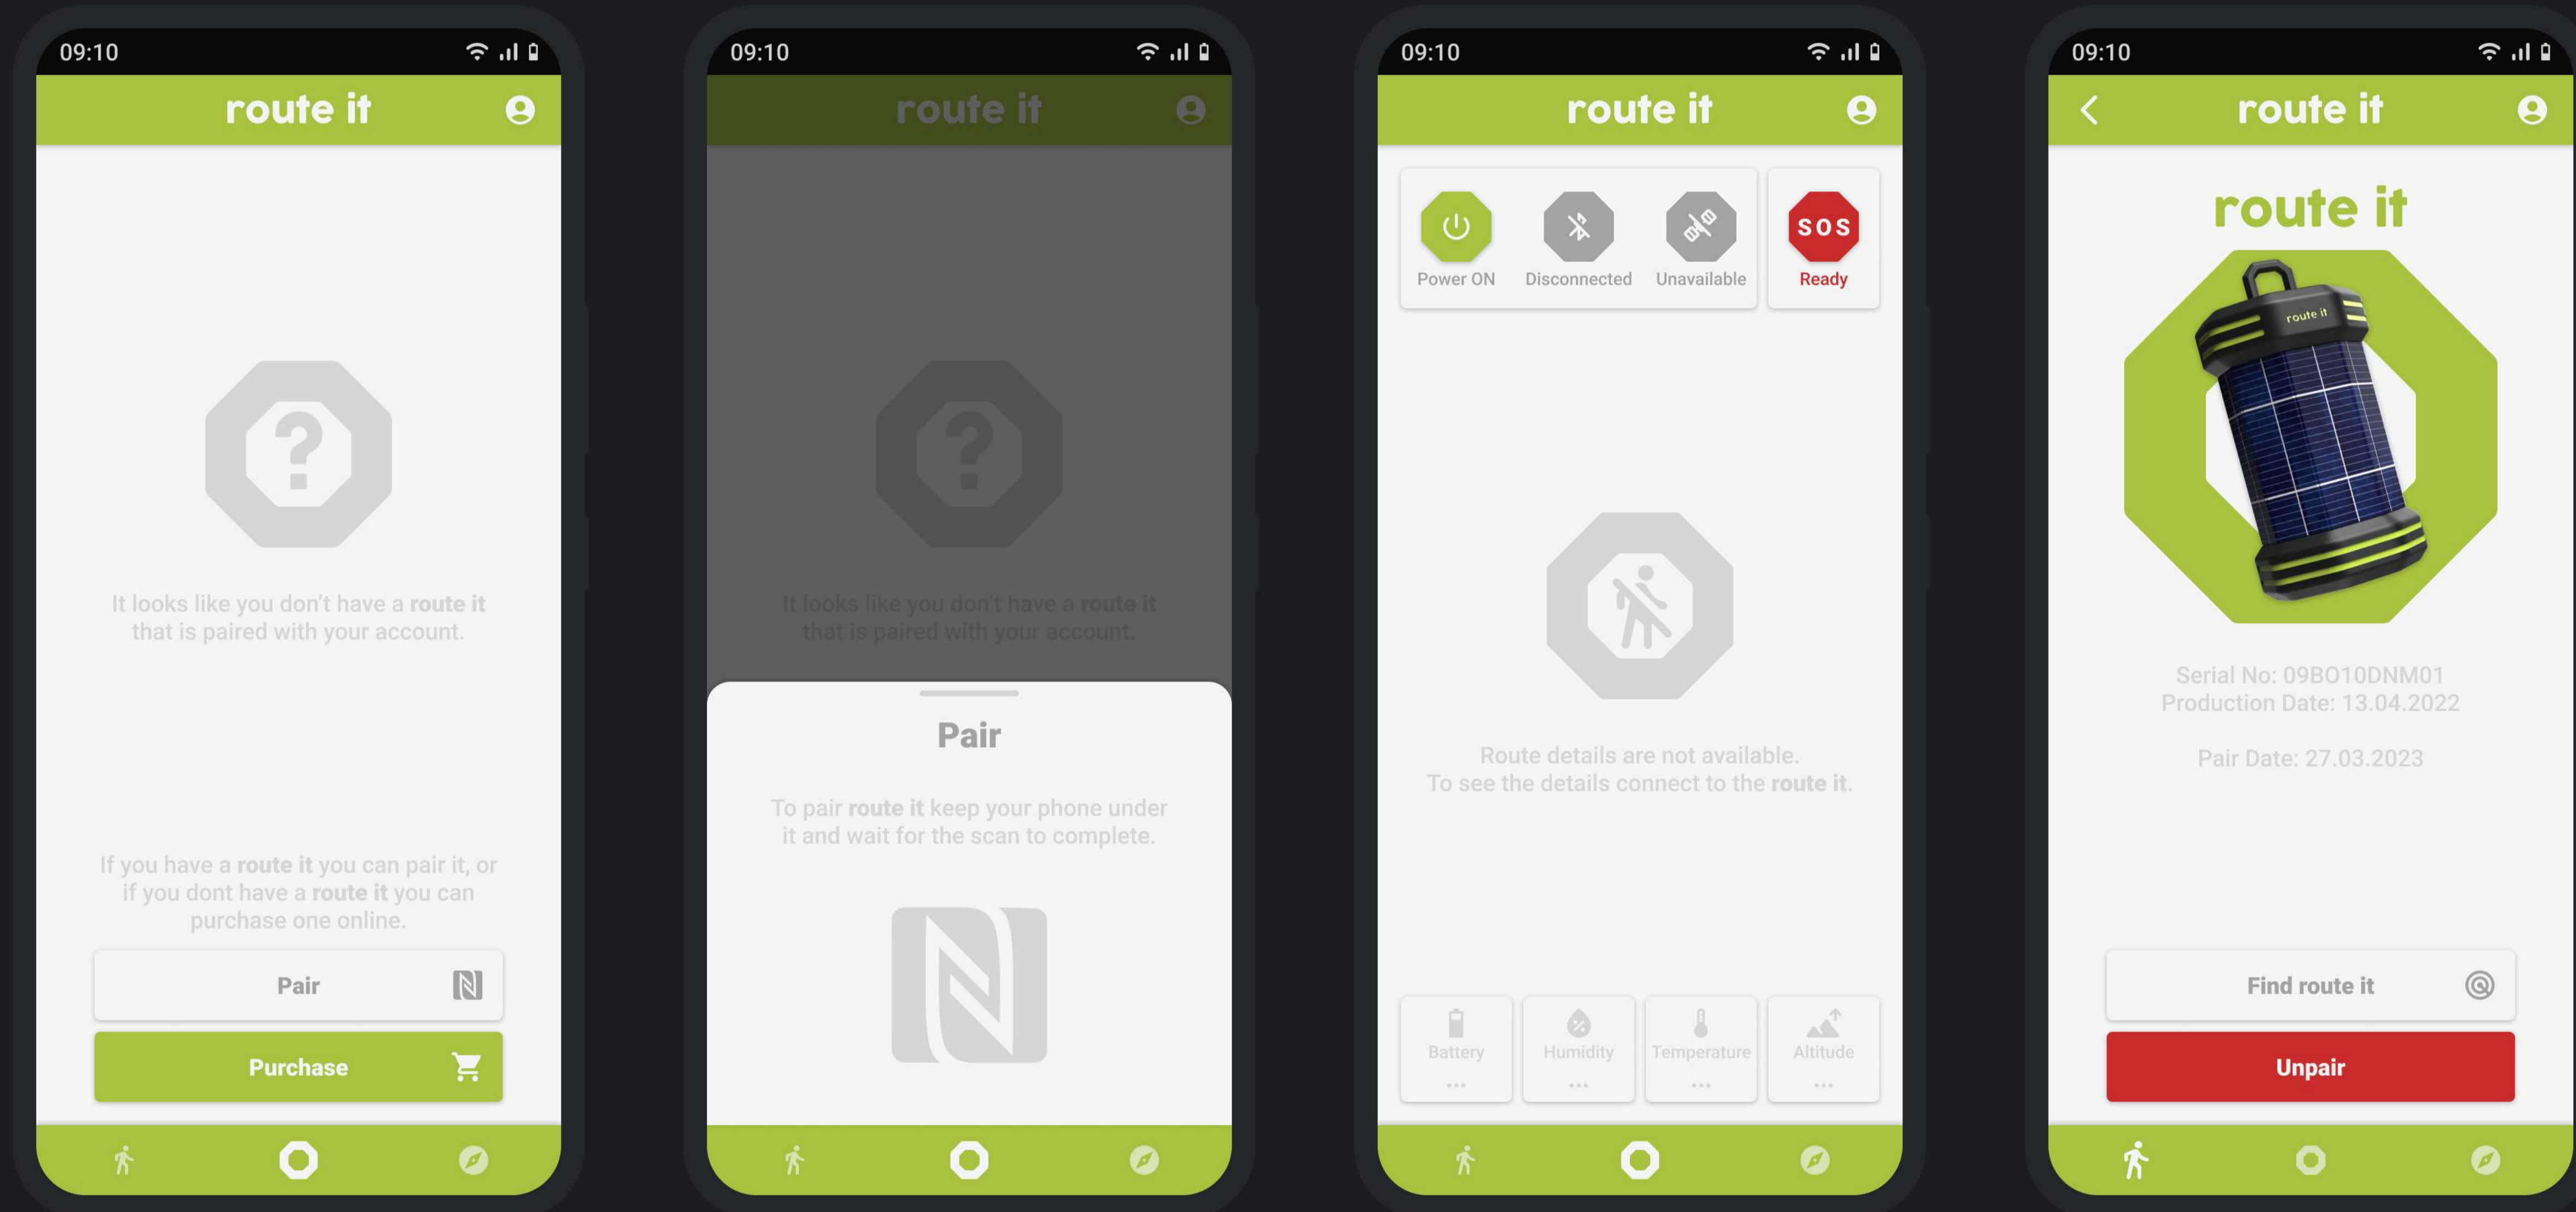

you can always find new **friends**, check their **favourite/completed/saved** routes, and **compete** against them with your **badges** and **statistics**.

while visiting a route you can see your **progression** and **read** live comments. also, you can **add** live comments/photos to community routes too.

if you carry the product along with you, it **gathers/records** environmental data and lets you check them **whenever** you want. also, you can send **sos signals/messages** in case of **emergency**.

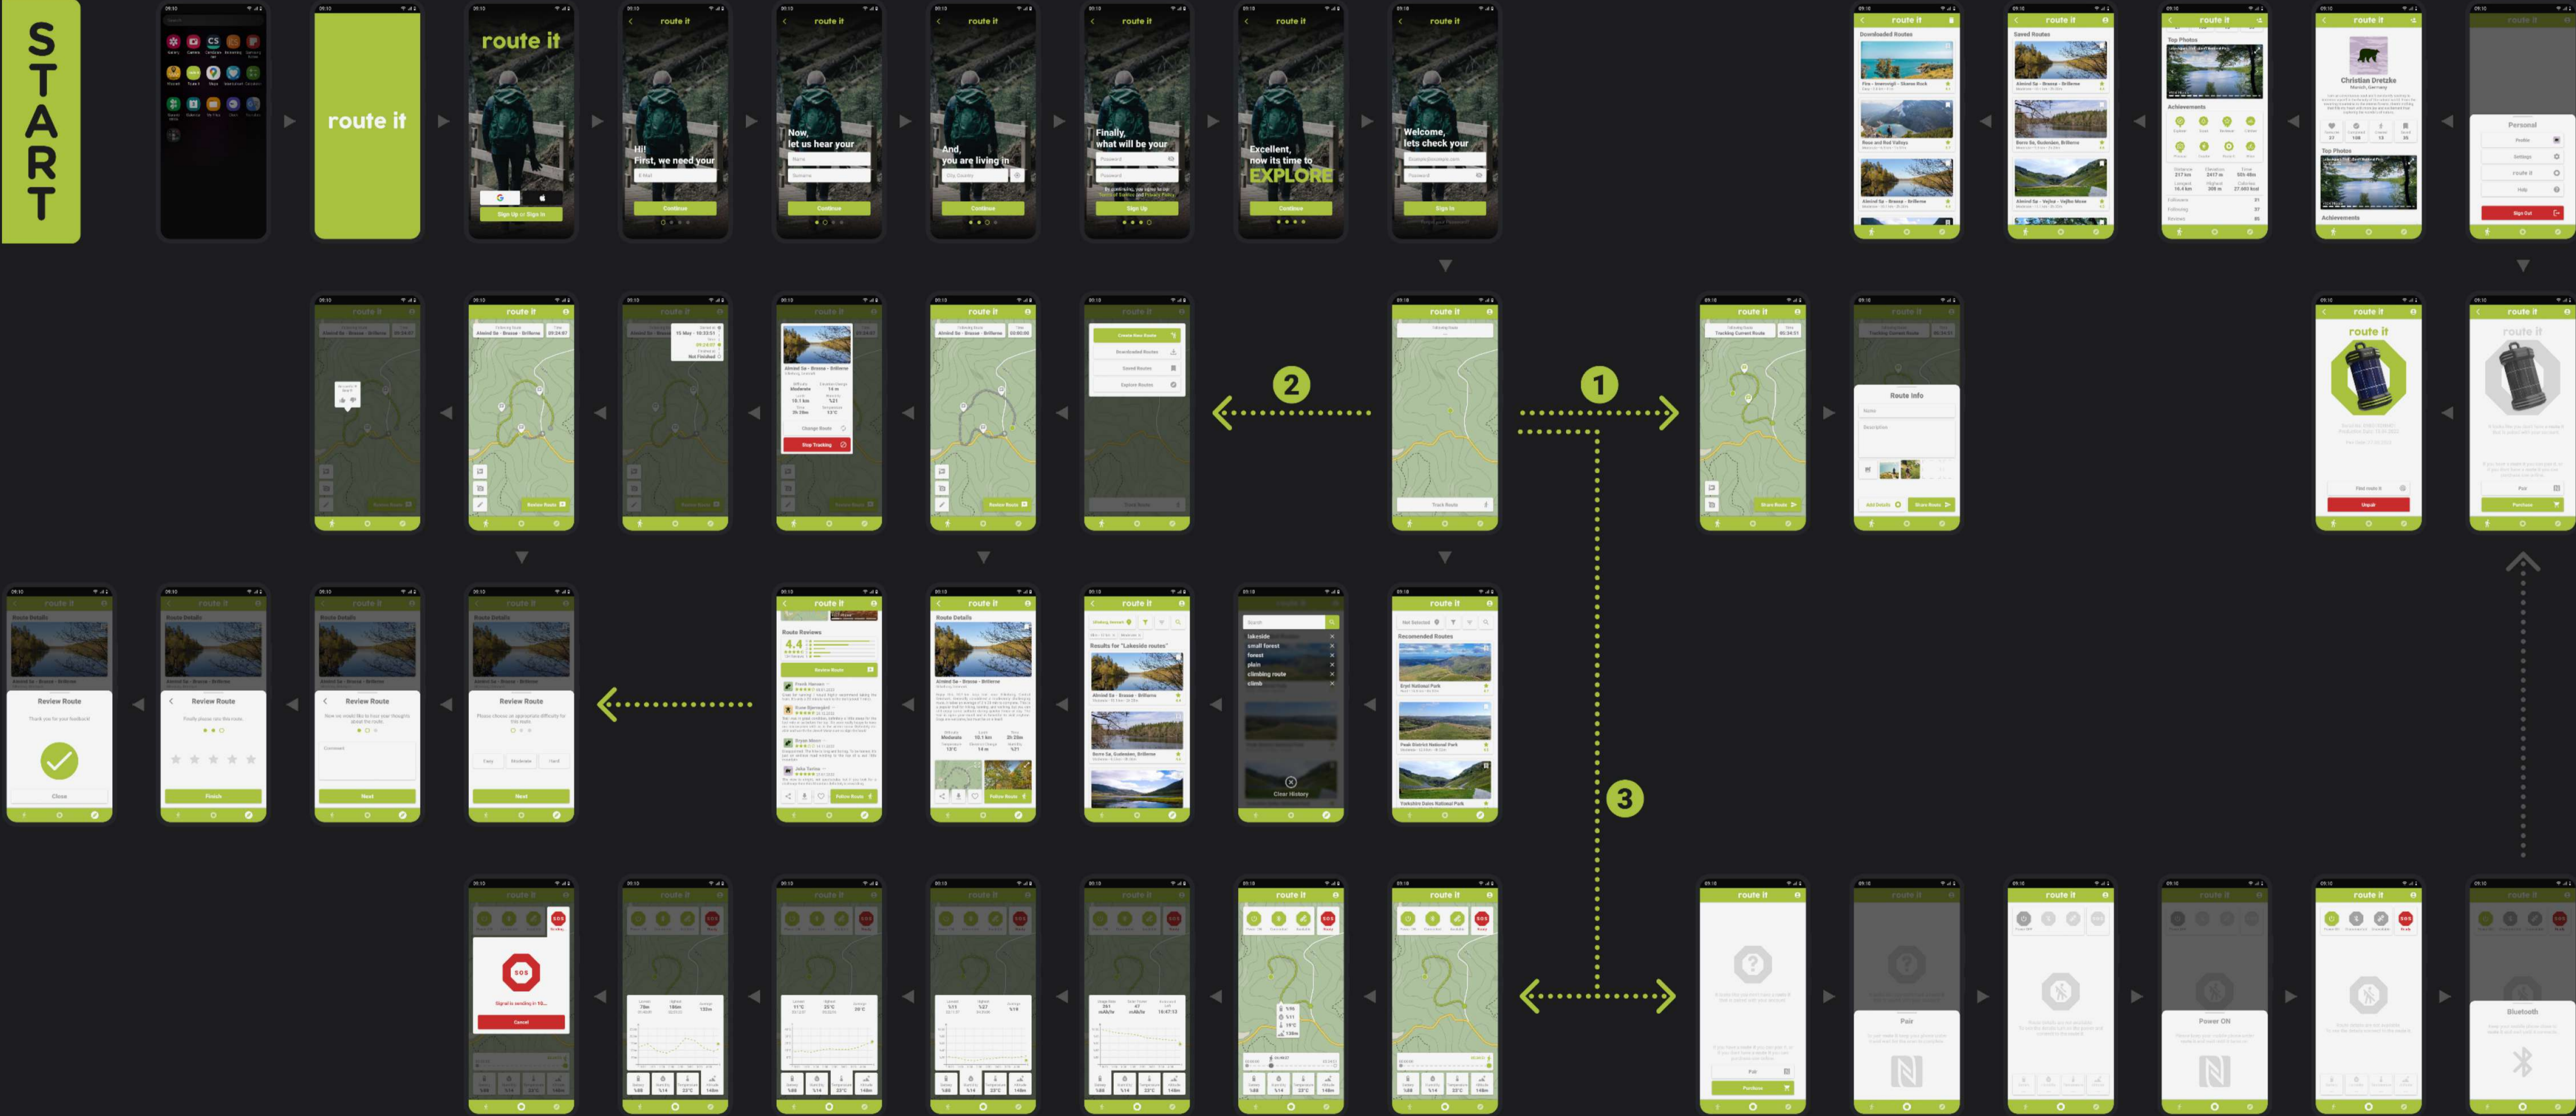

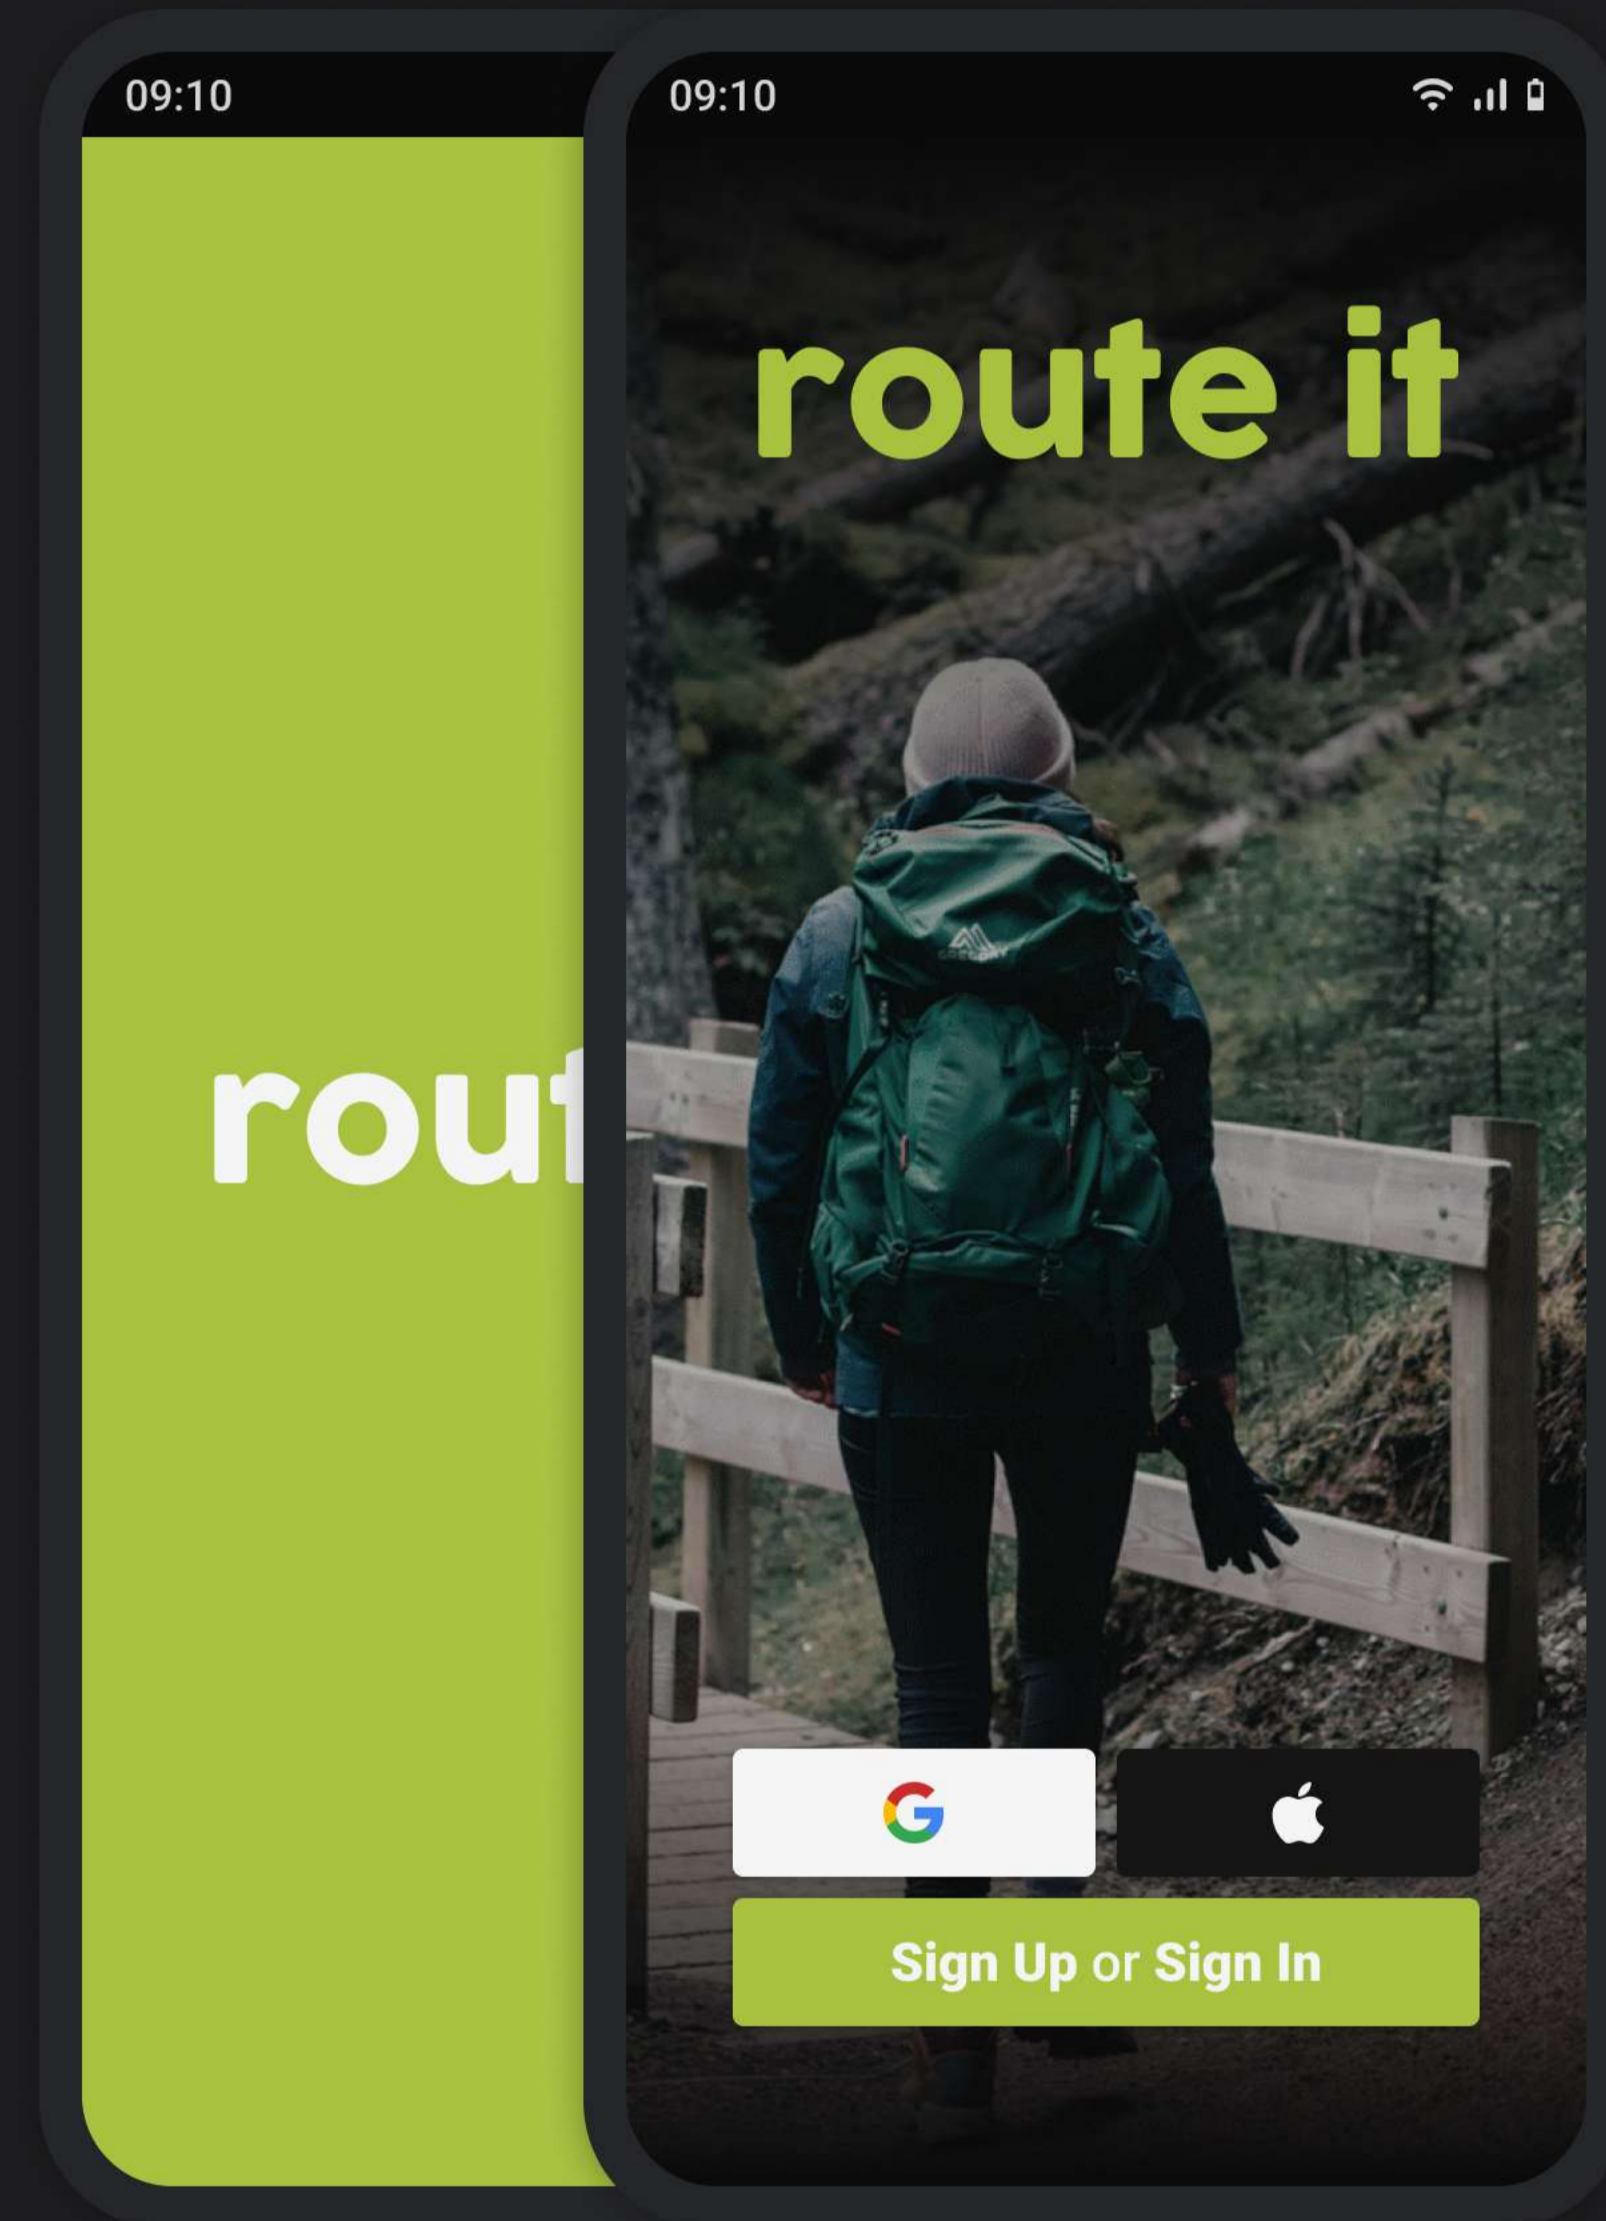

it is very easy to **pair** and **connect** to the product. if you ever **lose** it, you can always find it with the application.

The screenshot shows the Jotform Tables interface with a chat overlay. The chat window is titled "Chat" and contains the following messages:

- 09:41: Can you inspect submissions.
- 09:43: **Muhammet Ali FIDAN** (MF): I will inspect them after the meeting, but if it is urgent then someone else can start maybe.
- 09:48: **Sila MAHIM** (SM): I can do it now if you need.
- 09:48: I just don't know what should I look for.
- 09:57: It would be great if you can.
- 09:58: I am writing a report now, and I have to include them at the end. Fadime might describe you how to do it.
- Fadime Nazli DOGRUL** (FD): Of course I can. It is so simple actually. First, you have to sort all submissions from high to low. Then you have to note what are the most valuable assets we

At the bottom of the chat, there is a blue button that says "7 New Messages" and a text input field with the placeholder "Say something. Use @ to mention." and a send button.

Jotform

chat integration for **Jotform's** Tables product as internship project.

description

this chat integration is designed during **Jotform's** **internship** program.

this project aims to provide **uninterrupted** Tables experience, which is **Jotform's** spreadsheet product, to **Jotform** users by allowing them to communicate, send/recieve files, vote for ideas and more...

The screenshot shows a Jotform chat interface. On the left, there is a table with the following data:

f(*) Total Contribution to Budget
-\$0,073.00
-\$0,018.00
-\$0,118.00
-\$0,044.00
-\$0,850.00

-\$0,049.00
-\$0,024.00
\$000,500.00
-\$0,197.00
\$002,225.00

The chat window on the right shows a conversation with three participants: SM, FD, and MF. The messages are:

- SM: "We should discuss how we will filter the data." (10:21)
- SM: "I am busy right now but we can plan a meeting for afternoon maybe, or tomorrow." (10:23)
- MF: "I am available all day." (10:37)
- MF: "But It would be good if we can meet today." (10:38)
- SM: "Then let's meet at 4 pm. Is it alright for everyone?" (10:43)
- SM: "Then lets meet at 5.30 pm. Is it alright for everyone?" (10:43)

you can **edit** your messages or just **delete** them...

This screenshot shows a chat window with a message being edited. The message is: "Also, how can I search in chat?" (09:33). A trash can icon and a pencil icon are visible next to the message, indicating the edit and delete options.

This screenshot shows a chat window with a delete confirmation dialog. The dialog text is: "Delete this message? This action is irreversible and you will not be able to restore this message." The dialog has two buttons: "Cancel" and "Delete".

This screenshot shows a chat window with a message that has been deleted. The message is: "Nevermind, I figured it out." (09:33). The message is replaced by a placeholder text: "This message has been deleted." (09:33).

The screenshot shows a Jotform chat interface. On the left, there is a table titled "Total Contribution to Budget" with various monetary values. On the right, a chat window is open with the following messages:

- Did you check out new submissions? (11:46)
- Muhammet Ali FIDAN (MF): Yes I did. Also, created a new chart to visualize them. I will start to write comparison report today. (11:48)
- Fadime Nazli DOGRUL (FD): I will create a backup for new submissions. (11:52)
- But I need someone to find where old backups restor... (11:53)

At the bottom of the chat window, there is a text input field with a plus icon and the text "Say something. Use @ to mention." and a blue send button.

also, you can **react** and **reply** to other team members...

This screenshot shows the same chat window as the first one, but with a reaction added to the message "But I need someone to find where old backups restor...". A mouse cursor is hovering over the reaction icons (thumbs up, thumbs down, heart, smiley, star).

This screenshot shows the same chat window with a reply box open. The reply text is "I can help you as soon as I finish". The text input field at the bottom now contains this reply text.
